

Locally Designed & Assembled Medical Device Solutions- *Innovation You Can Trust*

At Sabre Medical, we operate four on-site Class 7 and Class 8 cleanrooms tailored to meet all your medical device assembly and packaging requirements. Our state-of-the-art technology includes a European thermoforming machine and the exclusive Rapid Small Run Tray Forming System—the only one of its kind in the Asia-Pacific region.

A Major Milestone: TGA Audit Success

We're proud to share the successful completion of our TGA audit—an exciting milestone in our commitment to delivering high-quality, locally assembled, and sterile medical devices to support Australia's healthcare sector.

Your trusted partner for medical device assembly, packaging and cleanroom essentials.

A Collaborative and Innovative Partner for Your Medical Device Needs, including:

- Customised Medical Device Packaging Design & Manufacturing
- Reliable Off-the-Shelf Packaging Solutions
- Medical Device wash clean, packaging, and sterilisation, including TGA-ARTG listings for implantable products
- Medical Device Design & Assembly
- Comprehensive Testing, Validation & Sterilisation Services
- Cleanroom Essentials & Supplies
- Medical Device Packaging Machines & Equipment Sales
