

## HALEU Progress and Potential

DB. Poneman<sup>1</sup>,

1. President & Chief Executive Officer, Centrus Energy Corp, Maryland, United States.

### **HALEU PROGRESS AND POTENTIAL**

Dan Poneman, President and CEO of Centrus Energy Corp and former United States Deputy Secretary of Energy, will discuss the promise and potential of advanced reactors fueled with High-Assay, Low-Enriched Uranium (HALEU) and provide an update on the first-of-a-kind HALEU production facility that Centrus is building in Piketon, Ohio, with support from its Technology and Manufacturing Center in Oak Ridge, Tennessee. Poneman will highlight the critical role that new and existing reactors have to play in meeting the world's demand for zero carbon electricity.
