48TH INTERNATIONAL MENTAL HEALTH NURSING CONFERENCE

29 OCT - 1 NOV 2024, PERTH

About the conference

The Australian College of Mental Health Nurses (ACMHN) will be hosting the 48th International Mental Health Nursing Conference (ACMHN 2024) on the traditional land of the Whadjuk Noongar people in Perth in 2024 and is looking forward to welcoming more than 400 delegates. The conference showcases excellence in mental health nursing while providing opportunities to network with national and international delegates. The conference also provides opportunities to establish collaborative partnerships to enhance health outcomes for consumers, their families and carers and the broader community.

The theme for the conference is Mental Health Nursing – Advancing Equity, Access and Diversity and considers how mental health services provide care to all people across our diverse communities. To do this, we need to nurture and build a workforce that is inclusive and representative of all cultures, genders, identities and abilities.

The conference will showcase the unique contribution of mental health nurses and provide an environment for lively collegial discussion of the challenges and solutions for building the necessary workforce for, and providing mental health care to, our diverse communities.

Keynote speakers will be invited to share with us their ideas, perspectives and knowledge. A number of panel sessions, workshops and concurrent presentations will provide delegates with opportunities to reconnect, reflect and refresh.

Our aim for the 48th International Mental Health Nursing Conference is to create an environment conducive to sharing knowledge, building relationships and promoting collaborative practice. We seek to enhance and strengthen the mental health sector more broadly, and the profession of mental health nursing through providing mutually beneficial partnership opportunities for stakeholders, health care agencies and educational institutions.

Key topics include:

- Contemporary practice issues
- Clinical specialties
- Eliminating restrictive intervention
- Mental health nurse education
- Potential for mental health nursing practice
- Professional issues
- Recruitment and retention into mental health nursing
