

Session 5:

SCOPE CREEP

– Are you in my lane?

Chair: Terry Swanson, Nurse Practitioner Wound Management

Panel Members:

- **Leanne Boase**, Chief Executive Officer, Australian College of Nurse Practitioners
- **Dr Michelle Gibb**, Nurse Practitioner, Wound Specialist Services
- **Lori-Anne Sharp**, Federal Assistant Secretary, Australian Nursing & Midwifery Federation
- **Dr Geoff Sussman OAM**, Wound Care, Monash University
- **Stephen Tucker**, Associate Director Allied Health: Podiatry and Orthotics; Allied Health Admin, Northern Health

Briefly explain your definition of scope creep and your personal or professional experience?

**What are the disadvantages/
advantages or concerns regarding
Scope Creep?**

Are the regulations / governance or payments for advanced scope keeping up?

How effective is wound management in self-care and non-regulated workforce?

**Who should be performing tenotomies,
biopsies, sharp debridement and
prescribing?**

Is the workforce deskilling because of scope creep?

Should podiatrists be treating lower limb oedema? Is this only for specialists or should it be part of the core competencies?
