DecisionTools
A LUMIVERO SOLUTION

Unlock Productivity with Faster, Smarter Workflows

Time is of the essence, and creating and re-creating a calendar or waiting on long calculation times can distract you from more important priorities. Without easy-to-use, effective solutions, you'll quickly run out of time.

## The Complete Risk and Analysis Toolkit in Excel

Harness the power of Monte Carlo simulation in Excel with DecisionTools Suite. Structure complex decisions, predict outcomes, and optimize resources – elevating your decision-making process.
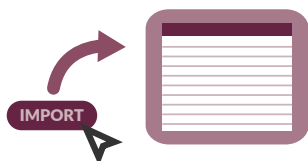

What's New

Blazing-Fast Calculations
Run complex calculations 4x faster in Evolver – freeing you up to focus on what matters most.

Intuitive Navigation
Updated, user-friendly Evolver interface empowers you to achieve more with less effort.

One-Click Project Reimport
Effortlessly update your projects with a single click.

Why Choose DecisionTools Suite?

DecisionTools Suite drastically reduces uncertainty in decision making with probabilistic risk analysis using Monte Carlo simulation in Excel. Quickly create decision trees, optimize resources, and manage project schedules – helping you make timely, data-driven decisions.

Seamless Integration into Excel

Work entirely in Excel, leveraging its features without learning new software for a smooth transition and immediate productivity.

Powerful Risk Analysis

Quickly analyze risks, prioritize tasks, and optimize resources with advanced Monte Carlo simulations and probabilistic analysis, enhancing your risk management approach.

Deliver Compelling Visualizations

Create rich stories from your data with easy-to-create visualizations helping you effectively communicate risk to all stakeholders.

Integrated Excellence for Unmatched Decision Making

With 4x faster calculations and a one-click calendar reimport, you can quickly check-off tedious tasks and focus on strategic planning and execution. Structure complex decisions, make predictions from data, allocate limited resources, and elevate your decision-making process – all with DecisionTools Suite.
