

ALICIA GARDEN

CEO | Agsafe

Alicia Garden is the Chief Executive Officer of Agsafe, where she leads the organisation's strategic direction, industry engagement and stewardship initiatives.

With a background in mechatronic engineering and computer science, Alicia has expertise in process and systems design, technical service commercialisation, membership engagement and policy development. She works closely with industry, government and key stakeholders to support the safe, compliant and responsible management of agricultural and veterinary (AgVet) chemicals across Australia.

Alicia has a strong focus on developing practical, industry-led solutions that strengthen safety, stewardship and operational outcomes throughout the AgVet chemical supply chain.
