

JOHN MANNING

**Owner | Sorted Seed Technologies –
Authorised Australian Dealer for Cimbria**

John Paul Manning is one of the owners of Sorted Seed Technologies, the authorised dealer for the complete Cimbria range of seed and grain processing, handling, and storage equipment across Australia.

With over 25 years' senior leadership experience in agribusiness, including his role in Grain storage and Handling Businesses, John specialises in material handling systems, silos, grain/seed processing infrastructure, and custom fabrication. A qualified welder/fabricator by trade and Project Manager with extensive facilities management and compliance expertise, he delivers practical, high-performance solutions tailored to Australian conditions.

John is passionate about helping seed processors and producers optimise efficiency, quality, and profitability through innovative Cimbria technology. He will share these insights as a keynote speaker on behalf of Cimbria at the Australian Seed Federation conference.
