Symposium – 11-12 August 2026
Masterclasses – 13 August 2026

PGCS 2025 Research Proposal
(Submit as a separate document for blind review)

Attach your research proposal as a separate document, maximum length 4 pages of A4 paper at 12-point font.

DO NOT include personal or other identifying information in the separate document.

Information required (*)

1) Research title
2) Brief research outline
3) Brief background to the research
4) Overview of literature review
5) Status of ethics approval
6) Aims and objectives of the research
7) Proposed research methods
8) The practical benefits expected to be derived from the research
9) Any constraints on publication related to secrecy, security or Intellectual Property
10) Why you think PGCS should support this application
11) Proposed overall budget and intended use of PGCS funding.

* Notes:

1) The sequence of the sections can be varied as needed.
2) Submitter's attention is drawn to ensuring that the requirements in the following sections of the **PGCS 2025 Research Proposal** (available online) are addressed:
   a. Section 1 (Contemporary major project delivery challenges)
   b. Section 2 (Research aims will be achieved)
   c. Section 4 (Proposed research questions will be answered)
   d. Section 4 (Conformance to the recommended research methodology).
3) The PGCS Academic Review Committee panel will assess the research proposals submitted against the selection criteria provided in the **PGCS 2025 Research Proposal** available online.
