

# clinell®

## 2% chlorhexidine bathing

Pack of 8 - CHGWC8 (Single use)

### Antibacterial bathing from the no. 1 hospital brand.

#### 2% chlorhexidine digluconate formula

Containing 2% chlorhexidine digluconate, the Clinell Chlorhexidine Range kills harmful bacteria found on the skin. Upon application, the active ingredient binds to the skin forming an invisible barrier that provides up to 6 hours of protection against bacteria.

Using the Clinell Chlorhexidine Range provides patients with an additional level of protection during their hospital stay.

#### Convenient pack sizes

With the convenience of Clinell, a no. 1 hospital brand, Clinell Chlorhexidine Wash Cloths are available in an easy-to-use 8 pack.

Each pack contains 8 large cloths, designed to deliver a complete body cleanse - without the need for rinsing.

#### Antibacterial barrier

Unlike conventional soaps and body washes, chlorhexidine binds to the skin to form an invisible antibacterial barrier.

#### Residual protection for up to 6 hours

Forming an invisible barrier, the Clinell Chlorhexidine Wash Cloths provide long lasting protection against a range of microorganisms for up to 6 hours.

#### Suitable for multiple uses

Ideal for patient skin cleansing in ICU or pre-admission.

#### Full body wash

Each pack delivers a full body cleanse, with wipes for each area to prevent microorganism transfer.

#### Provides rapid bactericidal action

Using the Clinell Chlorhexidine Range helps to reduce the number of bacteria on the body, offering protection against a wide variety of microorganisms that cause infection.

#### Use hot or cold

Use at room temperature or place in a Clinell Warmer for a warm wash cloth and enhanced patient comfort.

This product is on NT Health contract **20-0417**.

NT Health price for Clinell CHG Wash Cloths 8: \$5.59/pack
