# WORKSHOP PROGRAM

Sunday 20 July 2025			
0730 - 1700	Registration		
0830 - 1700	Pre-Conference Workshops		
	Workshop 1	Workshop 2	Workshop 3
0830 - 1700	<b>Planning the exit site for optimal dressing and securement (Cadaveric Workshop)</b> Anthony Mansfield, Anthony Marshall, Craig McManus, Evan Alexandrou, Gulay Sarac & Nicholas Miffiin.	<b>Principles and Practice for Difficult Venous Access</b> Kerrie Curtis and Lorenza Harrowell	<b>The Future is Here: Virtual Reality and More in Vascular Access Education</b> Shiva Pedram and Grace Kennedy
	Proudly Sponsored by 	Proudly Sponsored by 	Proudly Sponsored by

# MEETING PROGRAM

Monday 21 July 2025	
0630 - 0730	Exhibitor Move In
0700 - 1700	Registration & Arrival Tea and Coffee
0830 - 0840	Welcome to Country <i>Aunty Joyce Donovan</i>
0840 - 0855	Opening Remarks <i>The Hon. Paul Scully, Member for Wollongong, Minister for Planning and Public Spaces</i>
0855 - 0940	Keynote Address <i>Moderator: Claire Rickard</i>
	Central Venous Access in Oncology Treatment <i>Fredrick Hammarskjöld</i>
0940 - 1000	Invited Speaker <i>Moderator: Felicity McLaren</i>
	Central Lines' (CVAD's) A Carers Perspective <i>Chris Walker, Parenteral Nutrition Down Under</i>
1000- 1040	Panel Discussion <i>Moderator: Evan Alexandrou and Andrew Bulmer</i>
	State of Vascular Access in Australia <i>Jess Schults, Catherine Miller, Uli Steinwandel, Nicholas Mifflin and Claire Rickard</i>
1040 - 1110	Morning Tea

1110 - 1300	<b>Concurrent Session 1</b> <b>Acute Care</b> <b>Chair: Lorenza Harrowell</b> <b>Sponsored by</b> 	<b>Concurrent Session 2</b> <b>Pre-Hospital and Emergency</b> <b>Chair: Nicholas Mifflin</b>	<b>Concurrent Session 3</b> <b>Technology &amp; Innovations</b> <b>Chair: Andrew Bulmer</b>
1110 - 1140	What is the ideal catheter vein ratio for peripheral intravenous catheters? Results from a prospective cohort study <b>Nicole Marsh</b>	Ultrasound Guided Vascular Access by Paramedics - the long and the short (Pre-Recorded) <b>Dr Aidan Baron</b>	Innovation and Clinical Academics <b>Peter Carr</b>
1140 - 1200	PICC insights. A think-aloud study of dressing and securement practice for peripherally inserted central catheters <b>Samantha Keogh</b>	Using virtual reality as an innovative intervention for needle phobia in Emergency Department settings: a pilot randomised controlled trial <b>Grace Xu</b>	Analysing the ability of a novel ultrasound based vein visualisation device to detect suitable peripheral veins compared to landmark technique <b>Gavin Jackson</b>
1200 - 1220	A prospective observational study of burden in older persons of vascular access and cannulation <b>Evan Alexandrou</b>	Improving peripheral arterial catheter insertions utilising ultrasound, the Arterial Insertion method, a novel minimal blood loss technique and mechanical anchoring <b>Anthony Marshall</b>	Haemocompatibility testing of catheter materials in human blood indicates activation of coagulation and haemolysis in the presence of chlorhexidine coatings <b>Francesco Monti</b>
1220 - 1240	Non tunnelled dialysis catheter failure and complications in intensive care: a systematic review and meta-analysis <b>Amanda Corley</b>	Long guidewire catheter for difficult venous access in Emergency Department: a randomised control trial <b>Grace Xu</b>	Comparing the efficiency of peripheral vessel cannulation assistance utilising point localisation and pathway visualisation <b>Michael Liddelow</b>
1240 - 1300	The good, the bad and the ugly in peripheral intravenous catheter management: point prevalence study revisited at five years <b>Sarah Berger</b>	Resident medical officer (RMO) experience and attitudes towards ultrasound guided peripheral intravenous cannulation (USGPV) insertion <b>Danielle Leithhead</b>	Computational fluid dynamic analysis of peripheral venous structure and its influence on haemodynamic environment <b>Ellaby Hansen</b>
1300 - 1400	<b>Lunch Break</b>		
1400 - 1510	<b>Concurrent Session 4</b> <b>Chronic Care</b> <b>Chair: Claire Rickard</b>	<b>Concurrent Session 5</b> <b>Hospital in the Home and Ambulatory Care</b> <b>Chair: Mark Sutherland</b>	<b>Concurrent Session 6</b> <b>Critical Care</b> <b>Chair: Samantha Keogh</b>
1400 - 1430	How to undertake a good peer review of a journal article submission <b>Vineet Chopra</b>	Vascular Access in Hospital In the Home <b>Samantha Barhoun</b>	Intravascular Access in the Intensive Care Unit <b>Fred Hammarskjold</b>
1430 - 1450	Branching out: a nurse-led vascular access service inserting totally implanted venous access devices (TIVADs) <b>Anthony Marshall</b>	Ultrasound guided phlebotomy: improving the experiences with blood collection for people with a history of intravenous drug use and liver disease <b>Craig McManus</b>	Post insertion practices for non-tunnelled haemodialysis catheters in the intensive care unit: an Australia wide cross-sectional survey <b>Amanda Corley</b>
1450 - 1510	Patient Reported Outcome and Experience Measures for Central Venous Access Devices in Cancer Care <b>Emily Larsen</b>	Consequences to vascular access through inflammatory changes in dorsalis pedis artery for participants with rheumatoid arthritis, and observational ultrasound study <b>Robyn Boman</b>	Precision PICC Placement in LVAD patients: real time magnetic and ECG-guided navigation <b>Felicity McLaren</b>
1510 - 1600	<b>Afternoon Tea and Poster Reviews</b>		

1600 - 1710	<b>Concurrent Session 7</b> <b>Paediatrics &amp; Neonates</b> <b>Chair: Maurizio Pacilli</b>	<b>Concurrent Session 8</b> <b>Sustainability and Simulation in Vascular Access</b> <b>Chair: Nicole Marsh</b>	<b>Concurrent Session 9</b> <b>Cancers</b> <b>Chair: Emily Larsen</b>
1600 - 1630	A prospective cohort study of techniques and technology used to improve PIVC outcome in hospitalised paediatric patients: The TACTICS study <b>Tricia Kleidon</b>	Sustainable Access: Healthier Patients, Healthier Planet <b>Lorraine Fields and Jessie Austin</b>	Appropriate Use of Vascular Access Devices in Patients Hospitalised with Cancer <b>Vineet Chopra</b>
1630 - 1650	Umbilical venous catheter and peripherally inserted central catheter malposition and tip migration in neonates: and economic model <b>Deanne August</b>	A novel cost effective simulation model for vascular access cannulation training using skin on chicken breast and modelling balloons <b>Uli Steinwandel</b>	A multi-site cohort study investigating CVAD performance in patients with haematological cancer: translation of research into clinical practice <b>Kerrie Curtis</b>
1650 - 1710	New catheter, new problem: a comparative study of silicone versus polyurethane cuffed tunnelled central venous devices mechanical complications in children <b>Tannis James</b>	Using virtual reality to assess competence in ultrasound-guided peripheral venous cannulation <b>Jeppe Moerk</b>	Global insights into central vascular access device management in paediatric cancer care: an international cross sectional survey <b>Sabrina de Souza</b>
1800 - 1930	Welcome Reception North Bar, Novotel Wollongong Northbeach		

# MEETING PROGRAM

Tuesday 22 July 2025			
0730 - 1500	Registration & Arrival Tea and Coffee		
0845 - 0900	Opening Remarks <i>Nicholas Mifflin and Mark Sutherland</i>		
0900 - 0945	Keynote Address <i>Moderator: Tricia Kleidon</i>		
	Midclavicular lines in Spain <i>Victoria Armenteros-Yeguas</i>		
0945 - 1015	Invited Speaker <i>Moderator: Andrew Bulmer</i>		
	Comparison of Peripherally Inserted Catheter Materials <i>Deanne August</i>		
1015 - 1100	Morning Tea		
1100 - 1230	Concurrent Session 10 Workforce <i>Chair: Anthony Marshall</i>	Concurrent Session 11 Governance of Vascular Systems (Q&S) <i>Chair: Evan Alexandrou</i>	Concurrent Session 12 Infection <i>Chair: Nicola Isles</i>
1100 - 1130	Developing Nurse-Led Vascular Access Teams <i>Victoria Armenteros-Yeguas</i>	Health Services Research and its Governance <i>Ken Hillman</i>	The Confusing Landscape of Intravascular Catheter-Related Infections <i>Fredrick Hammarskjöld</i>
1130 - 1150	Should we implement vascular access teams? Results from a randomised control trial. <i>Nicole Marsh</i>	Evaluating Australian Emergency Clinicians Compliance with the National PIVC Clinical Care Standard <i>Grace Xu</i>	Infection risk of peripheral intravenous catheters - meta synthesis of 18 prospective studies with 14,606 catheters <i>Claire Rickard</i>
1150 - 1210	Learnings from the implementation and expansion of Australia's first nurse-led paediatric comprehensive paediatric service <i>Catherine Baring</i>	Vascular access teams in hospital settings: impact on clinical practice standards, patient outcomes and organisational efficacy <i>Alice Stewart</i>	Early prediction of central line associated blood stream infections in critically ill patients using machine learning: a multi-centre validation study <i>Jessica Schults</i>
1210 - 1230	Taking a big leap forward: implementing a paediatric vascular access specialist team <i>Eloise Borello</i>	Peripheral intravenous catheter care compliance with the clinical care Standard: a multi-site study <i>Gillian Ray-Barruel</i>	Effectiveness of tissue adhesive glue for securing paediatric vascular access devices: a systematic review and meta-analysis. <i>Sabrina de Souza</i>
1230 - 1330	Lunch		
1330 - 1400	Keynote Address <i>Moderator: Maurizio Pacilli</i>		
	Improving PIVC management in the ED <i>Diana Egerton-Warburton OAM</i>		
1400 - 1500	Panel Discussion <i>Moderator: Craig McManus</i>		
	How things go wrong - case studies / challenging cases <i>Maurizio Pacilli, Cathy Tran, Anthony Marshall, Butch Bayalan, Catherine Miller</i>		
1500 - 1530	Closing Remarks / best abstract <i>Nicholas Mifflin &amp; Mark Sutherland</i>		
1530	Conference Close
