

# MONASH University

For more than 30 years we've educated generations of nurses and midwives to lead change.

We're working every day to create real, lasting change within healthcare offering undergraduate, and a range of graduate courses across a variety of specialisations and strive to provide first class teaching and research to ensure our graduates are prepared for the complexities and challenges of the diverse healthcare settings in which they will work.

So be at the forefront of the next generation of nursing and midwifery leaders, challenging preconceptions and leading the way in new techniques, evidence-based practice and innovative ways of working.
