

ACOMS 2026 PROGRAM - Oral Presentations

(as of 4 March 2026)

DAY 1, 27 March 2026 (Friday)

Day 1 27 March	Theatre 1 (1/F)	Theatre 2 (1/F)	Conventional Hall C (1/F)	S221 (2/F)
08:00-09:00	Free Paper 1: Orthognathic & Aesthetic Surgery	Free Paper 2: Reconstructive Surgery	Free Paper 3: Craniofacial Trauma	Free Paper 4: Dental Implantology
7 x [6 mins + 2mins Q&A]	<p>Moderators: Richard Grillo, Alex Law</p> <p>(14) Rigotomy Technique Combined with Autologous Fat Grafting in Repairing Maxillofacial Tissue Defects Xi Gong</p> <p>(19) Systematic Review of Surgical Modalities for Managing Facial Asymmetry Secondary to Masseteric Hypertrophy and Prominent Mandibular Angle: Developing an Evidence-Based Algorithm for Optimal Intervention Selection Amanjot Kaur</p> <p>(83) A case of surgical orthodontics for patients with skeletal mandibular retrognathism with swallowing dysfunction Takako Sato</p> <p>(87) Orthognathic surgery for correction of post-traumatic malocclusion: a four-case series Nissia Ananda</p> <p>(114) Mixed Reality-Assisted Patient Specific Implants for Cutting Guide Free Maxillary Positioning Haoning Li</p> <p>(122) A Spatiotemporally Controlled Hydrogel System for Sequential Delivery of SDF-1α and Magnesium Ions Promotes Bone Repair via Homing and Osteogenesis Xiang Li</p>	<p>Moderators: Teresa Lo, Patrick Tai</p> <p>(11) Self-Sustaining Flaps for Defect Reconstruction Following Resection of Maxillofacial Giant Benign Tumors Zijian Guo</p> <p>(18) Soft Bone, Strong Results: Revisiting Non-vascularised Rib Grafts for Maxillomandibular Reconstruction with the Mazumdar Shaw Hospital [MSH] Protocol Prashanth Lowell Monis</p> <p>(24) Research and Validation of an Intelligent Jaw Reconstruction Robotic System Jiannan Liu</p> <p>(30) Mandibular Symphysis Reconstruction Using Multi-segment Deep Circumflex Iliac Artery Flap and Customized Workflow with Surgical Templates Chongyang Zheng</p> <p>(68) Clinical application of intramedullary fixation in mandibular reconstruction with condyle preservation Xingzhou Qu</p> <p>(79) The Rectus Femoris Muscle Flap for Tongue Reconstruction After Oncologic Surgery: A Preliminary Clinical Evaluation of 5 Cases Shuli Liu</p>	<p>Moderators: Joshua Chan, Xiang Li</p> <p>(54) From Lockdown to Knockdown: Nasal Fracture Trends in the Transition from Pandemic to Normalcy Florian Dudde</p> <p>(61) Cost Analysis of Maxillofacial Trauma Treatment in Three Major Ministry of Health Malaysia Hospitals Xiaofeng Ling</p> <p>(191) Beyond Routine Wound Repair: Insights from Patients with Extensive Facial Lacerations Minseok Woo</p> <p>(281) Orbital Floor Reconstruction Using Hybrid Patient-Specific Implants: A Retrospective Study Christian Schedeit</p> <p>(302) Surgical Accuracy of 3D Printing in Surgical Planning for Maxillofacial Trauma: A Retrospective Study Izzati Nabilah Binti Ismail</p> <p>(777) Post Operative Mandible Fracture Management Patient Feedback Questionnaire in a Major Trauma Centre in London Stephanie Reed</p> <p>(850) Adherence to Champy's lines in treating mandibular fractures and its impact on clinical outcomes: A case series from a London trauma center Joanna Ismail</p>	<p>Moderators: Christine Cheung, Wonki Wu</p> <p>(25) Comprehensive Digital Workflow for Immediate Zygomatic Implant-Supported Obturator Rehabilitation in Bilateral Maxillary Defects Zhen Wang</p> <p>(353) An Advanced Digital Workflow for Same-Day Full-Arch Implant Rehabilitation Using a Dynamic Navigation System Han-wei Lin</p> <p>(419) The Application of Digital GBR Simulation Technology Combined with Surgical Guide Plates in Horizontal Bone Increment in the Anterior Teeth Area Si Huang</p> <p>(537) Navigation-assisted digital surgery for zygomatic implant-supported reconstruction of maxillary defects Siqi Qiu</p> <p>(651) Glabella and Sphenoid implants for complex resected jaw rehabilitation Vivek Gaur</p> <p>(719) ZAGA Protocol for Quadruple Zygoma Implant Installation David Wei-Kai Hsu</p> <p>(729) What Determines Implant Success? A Retrospective Evaluation of Risk Factors Sava Baydar</p>

Day 1 27 March	Theatre 1 (1/F)	Theatre 2 (1/F)	Conventional Hall C (1/F)	S221 (2/F)
	(129) From CAD/CAM to Clinical Success: The Future of Orthognathic Surgery with Customized Titanium Solutions Yunyang Liao	(82) Fibular flap mandibular reconstruction for third-stage medication-related osteonecrosis of the jaw: A retrospective single-center study Hailong Ma		

Day 1 27 March	S222 (2/F)	S223 (2/F)
09:00-10:30	Free Paper 5: Oral & Maxillofacial Pathology	Free Paper 9: Cleft and Craniofacial Anomalies
11 x [6 mins + 2mins Q&A]	<p>Moderators: Joanna Ko, Yammy Tam</p> <p>(71) C-terminal telopeptide: A useful indicator for MRONJ risk? Elaine Yu</p> <p>(142) SAPHO and CRMO with mandible involvement: From clinical and imagine characteristics to Single-cell analysis and Multidisciplinary management Mu Wang</p> <p>(146) Adjuvant therapy in ameloblastoma management over the last five decades: A systematic review Yan Wen Tan</p> <p>(162) Long-term Management Of Anterior Mandibular Central Giant Cell Granuloma With Distraction Osteogenesis And An Implant-retained Bridge: An 11-year Follow-up Case Report Peng Ao</p> <p>(212) Air Where It Shouldn't Be: A Rare Paediatric Pneumoparotitis Case Mahsa Hosseini</p> <p>(225) Large Dentigerous Cyst Mimicking Ameloblastoma and Odontogenic Keratocyst: A Case Report Muhammad Bintang Menara</p> <p>(234) The Successful Management of Radicular Cyst with Marsupialization Technique: A Case Report Gabriella Lukito</p> <p>(235) Cementoblastoma of the Mandible : A Rare Case Report in a Paediatric Patient Arsa Hadiyatama Waskito Aji</p> <p>(256) Clinical Characteristics and Surgical Management of Blandin-Nuhn Mucocele: A Case Series Study Adrian Yudhistira Firdauzi</p>	<p>Moderators: Syed Nabil, Brian Wong</p> <p>(135) Quality Of Life Of Parents Of Children With Syndromic Craniofacial Deformities And Its Association With Surgical Complications Nabilah Jamali</p> <p>(144) Early Intervention for Skeletal Type III with Oligodontia : A Case report on the use of Modified Bone-Anchored Plate for Maxillary Protraction Prow Janjarussakul</p> <p>(176) Stepwise Skeletal Correction in Hemifacial Microsomia: From Distraction to Guided Orthognathic Surgery Natcha Vachiradecha</p> <p>(252) International Cooperation In The Field Of Cleft Lip And Palate Murod Jafarov</p> <p>(270) Rhinoplasty with Preauricular Cartilage Augmentation: A Case-Based Review Deddy Dwi Septian</p> <p>(289) Primary Palatoplasty and Its Impact on Secondary Speech Surgery Rates: A Five-Year Institutional Experience from Central Asia Mirjamol Jafarov</p> <p>(293) Comparative Outcomes of Microtia Reconstruction in Syndromic vs Nonsyndromic Patients: A Decade of Data Nazokat Mamasoliyeva</p> <p>(298) Effectiveness of Preoperative Orthopedic Preparation in Patients with Various Forms of Cleft Lip and Palate Laylo Pirmukhamedova</p> <p>(303) Beyond Primary Repair: Orthognathic Surgery in Long-Term Management of a Cleft Patient</p>

Day 1 27 March	S222 (2/F)	S223 (2/F)
	<p>(315) Recurrent Swelling on the Ventral Surface of the Tongue in an Adolescent: A Rare Case of Mucocele of Blandin-Nuhn Ms. Alfi Mubarak</p> <p>(351) Invasive Mucormycosis and Aspergillosis Coinfection of Craniofacial Bone: A Case Report Suthin Jinaporntham</p>	<p>Shuka Oyagi</p> <p>(383) Epigenetic Signatures of Cleft Subtype and Sex in Filipino Orofacial Cleft Patients Siu-Wai Choi</p> <p>(527) Three-dimensional Analysis Digital Evaluation of Maxillary Dental Arch Dimension in Modified Two Flap Palatoplasty Ken Ayu Miranthy</p>
10:30-11:00	Coffee Break	
11:00-12:30	<p style="text-align: center;">Free Paper 6: Orthognathic & Aesthetic Surgery</p>	<p style="text-align: center;">Free Paper 10: TMJ Surgery and Disorders</p>
11 x [6 mins + 2mins Q&A]	<p>Moderators: Michael Chao, Richard Grillo</p> <p>(154) Retrospective Study of Pterygomaxillary Region and Pterygopalatin Canal Morphologies in terms of Osteotomy Safety in Different Facial-Skeletal Relationships Esra Betül Baran</p> <p>(157) Prospective Study for Evaluation of Accuracy of Virtual Surgical Plan Transfer In Patient-Specific Osteotomy and Implants (PSI) Versus Conventional Osteotomy and Implants for Genioplasty Shreeya Biradar</p> <p>(197) Effectiveness of horseshoe osteotomy in preserving nasal airway and cavity volume after superior repositioning of the maxilla Enoha Kubo</p> <p>(206) Hilotherapy reduces inflammatory response and improves the balance between pro- and anti-inflammatory cytokines after orthognathic surgery Koichiro Sato</p> <p>(247) A Score-based Predictive System for Assessing the Necessity of Orthognathic Surgery in Chinese Population: A Tool Suitable for Predicting the Indication of Orthognathic Surgery Zhen Liu</p> <p>(280) Condylar Morphology in Skeletal Class II Malocclusion: Relationship to Mandibular Retrognathia and Airway Stenosis Rong Ren</p> <p>(287) Long-Term Impact of Orthognathic Surgery on Masticatory Muscles in Dentofacial Deformities Bowen Zheng</p>	<p>Moderators: Joshua Chan, Matthew Lam</p> <p>(10) What Are The Outcomes Of Jaw Function And Pain Reduction With Advanced TMJ Arthroscopy After Failed Lysis And Lavage Procedures? Johnson Cheung</p> <p>(102) Comparison of Efficacy of Hyaluronic Acid vs 50% Dextrose Vs I-Prf in Management of Internal Derangements on Temporomandibular Joints- A Randomized Controlled Trial Shivendra Choudhary</p> <p>(292) A comparative assessment by EMG and bite force of autogenous reconstruction of RCU done with Transport disc distraction osteogenesis and Costo-chondral grafting in TMJ ankylosis Shahid Iqbal</p> <p>(295) Unlocking the jaw: Jaw Motion and EMG analysis after Total joint replacement in TMJ ankylosis Diya Passi</p> <p>(307) Mixed Reality-Based Bone Registration and Positioning Technology for TMJ-Orthognathic Combined Surgery Yao Liu</p> <p>(332) Temporomandibular Joint Reconstruction and Orthognathic Surgical Strategies for Condylar Pathology–Induced Facial Asymmetry: A Retrospective Case Series Yunyang Liao</p> <p>(361) Prognostic impact of disc perforation on condylar remodeling following temporomandibular joint disc repositioning surgery in adult patients with ADDWoR: a single-center cohort study Ruiye Bi</p>

Day 1 27 March	S222 (2/F)	S223 (2/F)
	<p>(301) Skeletal stability and TMJ function evaluation following orthognathic surgery in skeletal class II patients with or without preoperative condylar resorption: a retrospective single-center cohort study Nan Jiang</p> <p>(306) Supralingular versus infralingular fracture patterns following sagittal split ramus osteotomy (SSRO): A cadaveric study Mohammad Suhayl Mohd Sofee</p> <p>(322) Heterotopic Ossification Of The Masseter Muscle Following Injection Lypolysis - A Case Report Jan Gaessler</p> <p>(369) Studying muscular function recovery of skeletal Class III patients with orofacial myofunctional exercise: A prospective controlled study Yuanyan Bai</p>	<p>(362) Contralateral condylar remodeling following unilateral total temporomandibular joint replacement Ruiye Bi</p> <p>(373) Bilateral Temporomandibular Joint Disorders with Different Pathologies: A Case Report of Staged Surgical Management Panu Supatraviwat</p> <p>(477) The mediation role of oral behaviors between depression, anxiety and postoperative pain in patients with anterior disc displacement without reduction: a cross-sectional study Jingjun Wang</p>
12:30-13:30	Lunch Symposium	
13:30-15:00	<p style="text-align: center;">Free Paper 7: Head & Neck Oncology</p>	<p style="text-align: center;">Free Paper 11: New Technologies + TMJ Surgery and Disorders</p>
11 x [6 mins + 2mins Q&A]	<p>Moderators: Joshua Chan, Alex Law</p> <p>(8) CircPRUNE inhibits the proliferation and metastasis of oral cancer through PTBP3/NOTCH3 signaling axis Hongyu Yang</p> <p>(9) Robotic Neck Dissection PLUS Free Flap Reconstruction with intraoral Microvascular Anastomosis for Oral Cancer Guiquan Zhu</p> <p>(15) Development And Validation Of A Nomogram Model For Predicting Postoperative Delirium In Elderly Patients With Oral Cancer: A Retrospective Study Ying Chen</p> <p>(27) Application and effectiveness evaluation of discharge preparation services based on the 4C continuity of care model in patients with oral cancer undergoing tracheotomy Yueping Wang</p> <p>(28) IncRNA ADAMTS9-AS2/let-7a-5p Axis Regulates Metabolic Reprogramming By Targeting HK2 In Oral Submucous Fibrosis-associated Oral Squamous Cell Carcinoma Shanghai Zhou</p> <p>(81) Mechanism of histone lactylation to promote immuneescape in oral squamous carcinoma</p>	<p>Moderators: Wantao Chen, Patrick Tai</p> <p>New Technologies</p> <p>(65) Does PRF Technique Matter? Horizontal vs. Extended PRF in Third Molar Surgery Amila Haskić</p> <p>(113) Deformation assessment of the manually pre-bent titanium miniplates in orthognathic surgery with finite element analysis Linan Liu</p> <p>(169) Feasibility analysis of mixed reality-assisted pre-bent titanium miniplate in maxillary orthognathic surgery Liwei Huang</p> <p>(288) Modified VAC technique in treating odontogenic descending cervico-mediastinal infections:a cohort study Mu Wang</p> <p>(294) mHealth Applications and eHealth Tools for the Clinician in the Management of Facial Skin Cancers: A Scoping Review Kavvner Low</p> <p>(404) Automated Patient Referral Triage Using a Large Language Model</p>

Day 1 27 March	S222 (2/F)	S223 (2/F)
	<p>Hailong Ma</p> <p>(85) Targeting IL-1α Sensitizes HNSCC to PDT by Reversing Hypoxia and NF-κB-Driven Oxidative Stress Resistance Lingyue Shen</p> <p>(88) Characterization of BRCA alterations in head and neck squamous cell carcinoma using real-world data Takeru Kobayashi</p> <p>(125) Predicting Lymph Node Metastasis in OSCC with Multimodal Deep Learning and Machine Learning: A Multicentre Study Using Clinical Features, B-mode US, and Colour Doppler Junqi Xin</p> <p>(137) Global Leadership Initiative on Malnutrition (GLIM)-identified malnutrition predicts postoperative short- and long-term clinical outcomes in patients with oral squamous cell carcinoma Zhien Feng</p> <p>(138) The Small Extracellular Vesicle-Mediated Intercellular Transformation of CXCR1-Low to CXCR1-High Tumor Cells Promotes the Progression of Head and Neck Squamous Cell Carcinoma Qiaoshi Xu</p>	<p>John Nathan</p> <p>(456) Accuracy of Real-Time 3D Ultrasound Reconstruction Algorithm for Maxillofacial Bones Bimeng Jie</p> <p>(461) Evaluation of the accuracy of autonomous robotic-controlled maxillofacial osteotomy and bone repositioning system: model and animal experiments Bimeng Jie</p> <p>(468) A Multi-Imaging Integrated Augmented Reality Platform for Head & Neck Fine Needle Aspiration Yuk Yu Cheung</p> <p>(544) Deep learning for automatic detection of cephalometric landmarks on lateral cephalometric radiographs using the Mask Region-based Convolutional Neural Network: a pilot study Haijun Gui</p> <p>TMJ Surgery and Disorders</p> <p>(357) Office-Based TMJ Arthroscopy: Clinical Feasibility and Short-Term Outcomes Hsiu-An Hsu</p>
15:00-15:30	Coffee Break	
15:30-17:00	<p>Free Paper 8: Reconstructive Surgery</p>	<p>Free Paper 12: Others</p>
11 x [6 mins + 2mins Q&A]	<p>Moderators: Teresa Lo, Jessica Yau</p> <p>(139) Vascularized serratus anterior fascia-latissimus dorsi flap for repairing composite scalp-cranio-dural defects: A novel surgical approach Zhengxue Han</p> <p>(173) Surgical treatment of medication-related osteonecrosis of the jaw: a 5-year single-center experience Yuhan Lin</p> <p>(175) The Use of Thrombolytic Agents in Flap Salvage - A Systematic Review (1985 to 2025) Melissa Hsuen Wei Yong</p> <p>(195) A Sequential Protocol for Functional and Aesthetic Rehabilitation Following Mandibular Reconstruction with Vascularized Fibula or Iliac Crest Flap</p>	<p>Moderators: Michael Chao, Cara Leung</p> <p>(17) Depiction of the symptom management journey map for middle-aged and young oral cancer patients and nursing strategies Aili Zhang</p> <p>(124) Mapping the Rise of a Clinical Challenge: A Scientometric Journey into Denosumab-Related Osteonecrosis of the Jaw Research Yue Lin</p> <p>(183) Dental Extraction Bleeding Time as An Indicator for Clopidogrel Resistance: A Pilot Study Poh Jia Wen Brenda</p> <p>(188) The Need for a Systematic Orofacial Pain Algorithm: Evidence from a Nationwide Practitioner Survey</p>

Day 1 27 March	S222 (2/F)	S223 (2/F)
	<p>Wenyan Wu</p> <p>(236) Implementation of Virtual Surgical Planning for Free Fibular Flap mandibular reconstruction in clinical practice: Perspective of Indonesian Plastic Surgeons Jessica Halim</p> <p>(248) Stage In Microtia – Which Is Better? Murod Jafarov</p> <p>(266) Descending branch of hypoglossal nerve-facial nerve transfer: a novel effective technique for facial nerve defects after parotid gland tumor resection Shengwen Liu</p> <p>(274) A Novel Microsurgical Anastomosis Device for Arteries and Veins John S P Loh</p> <p>(411) Custom Implant / Dynamic Reconstruction Implant for the Zygomatic Arch in a Pediatric Patient, secondary to a Dog Bite José Armando García Araiza</p> <p>(447) Evaluation of accuracy and complication of COSMOFIX® system in mandibular reconstruction surgery Chihiro Kanno</p> <p>(448) Feasibility of Fibula “Jaw-in-a-Day” in Multi-segments Mandibular Defect: What to Consider? Chien Ya Lo</p>	<p>Jun Jun Soh</p> <p>(210) Management Of Osteonecrosis Of The Jaw With A Background Of Osteopetrosis Khadija Kara</p> <p>(245) Suction Catheter as a Guide for Nasotracheal Intubation Under General Anesthesia: Randomized Clinical Trial of Efficacy Pattamon Leelachaikul</p> <p>(324) Conservative Surgical Treatment for Ameloblastoma in Juvenile Patients Syarifah Nova Amiza Zam</p> <p>(352) A clinicopathological study on the associations between ranulas and autoimmune diseases Xia Hong</p> <p>(366) Using of Dental Casemix Program to Analyse Unit Costs of Minor Oral Surgeries in Dental Student’s Clinic Yosananda Chantravekin</p> <p>(690) Clinical Characteristics of Oral and Maxillofacial Masses in Children and Adolescents: A Retrospective Analysis of 637 Hospitalized Cases Min Zhou</p> <p>(747) Observation on the Efficacy of Pamidronate Disodium in Treating Diffuse Sclerosing Osteomyelitis of the Mandible and Analysis of Risk Factors for Recurrence Yichun Yang</p>

DAY 2, 28 March 2026 (Saturday)

Day 2 28 March	Theatre 1 (1/F)	Theatre 2 (1/F)	Conventional Hall C (1/F)	S221 (2/F)
08:00-09:00	<p align="center">Free Paper 13: Dental Implantology + Dentoalveolar Surgery</p>	<p align="center">Free Paper 14: Head & Neck Oncology</p>	<p align="center">Free Paper 15: Oral & Maxillofacial Pathology</p>	<p align="center">Free Paper 16: Orthognathic & Aesthetic Surgery</p>
<p>7 x [6 mins + 2mins Q&A]</p>	<p>Moderators: Joanna Ko, Alan Ma</p> <p>Dental Implantology (741) Effect of guide sleeve height and a visual direction-indicating guide (VDING) on dental implant accuracy in vitro Ye Liang</p> <p>(855) The application of a tooth or its fragments in maxillofacial surgery for bone regeneration Nikolai Redko</p> <p>Dentoalveolar Surgery (155) Examination of the Effect of Existing Sleep Disorders in Patients on Post-Extraction Discomfort Arda TOPTAŞ</p> <p>(260) Dentinal Graft in Oral and Maxillofacial Surgery - A Case Series Shalini Jagadisen</p> <p>(443) High Success of Autotransplanted Teeth Without Routine Root Canal Treatment on closed apex tooth: A systemic review Joon Ha Park</p> <p>(458) Factors Influencing the Response of the Traffic Accidents Patients to Surgical Treatment Ni Putu Natasha Ayu Rupayasa</p> <p>(693) IAN exposure intraoperation observed under endoscope for M3Ms with IAN and root contacting signs on preoperative CBCT Xiangliang Xu</p>	<p>Moderators: Alvin Kung, Syed Nabil</p> <p>(177) Preoperative periodontal debridement as a preventive measure for postoperative pneumonia in OSCC patients: A retrospective study Chuqiao Xiao</p> <p>(208) Urothelial bladder carcinoma presenting as an ocular metastasis: A case report and review of the literature Andreas Sieber</p> <p>(209) Atypical Subcutaneous Facial Manifestations of B-Cell Lymphomas: Report of Two Rare Cases and Literature Review Dr. Andreas Sieber</p> <p>(244) Surgical Management Strategies in Patients with Conventional Ameloblastoma: a case series Lu-Ying Huang</p> <p>(269) Less is More: Oncologic Equivalence and Reduced Morbidity of Sentinel Node Biopsy in Early Oral Cancer—A Meta-Analysis of Randomized Trials Deddy Dwi Septian</p> <p>(300) A Serum Metabolomics Signature for Early Detection and Molecular Stratification in Head and Neck Squamous Cell Carcinoma Hexin Ma</p> <p>(304) TMSB10 Promotes Stemness and Malignant Progression in Head and Neck Squamous Cell Carcinoma Xinran Zhao</p>	<p>Moderators: Christine Cheung, Tracy Ho</p> <p>(358) Molecular Signatures of Metastasis and Recurrence in Oral Squamous Cell Carcinoma Kaiyuan Sun</p> <p>(413) Sunitinib induces impaired healing of oral mucosa by interfering macrophage efferocytosis Qiao Qiao</p> <p>(416) Ultrasound-guided procedures in the Head and Neck: Expanding diagnostic and operative capabilities Sieu Ming Ng</p> <p>(589) Targeting Metabolic Dysregulation in MRONJ Pathogenesis Zhiwei Cao</p> <p>(634) A Rare Manifestation of Pre-maxillary Amelanotic Melanoma and Its Histopathological Aspect Shailesh Kumar</p> <p>(730) Deep Learning-Based Automated Segmentation of Tumor Microenvironment Components in Oral Squamous Cell Carcinoma Ge Wang</p> <p>(746) Extensive Ameloblastoma of the Mandible: Histopathology, Immunohistochemistry and qPCR for Diagnosis, Treated by Segmental Resection with Immediate Prosthetic Reconstruction Luiz Henrique De Melo Nogueira</p>	<p>Moderators: Richard Grillo, Brian Wong</p> <p>(334) Bone Contouring of the Lower Face in Variety Methods by Narrowing and Lengthening Genioplasty Hokleang LY</p> <p>(412) Automatic Quantification of Osteosynthesis Plate–Bone Shape Fit: Method Performance and Design Quality Comparison of Manual vs Generative Designed Patient-Specific Plates for Orthognathic Surgery Mengjia Cheng</p> <p>(446) Evaluation of Airway Dimensional Changes Evaluation Utilizing CBCT Following Orthognathic Surgery Hsiao-Chun Chou</p> <p>(467) Enhanced Recovery After Surgery (ERAS) Protocol in Orthognathic Surgery: A Retrospective Cohort Study Aydın Onur Gerçek</p> <p>(471) Evaluation of Enhanced Recovery After Surgery in Perioperative Nutritional Management for Patients with Craniofacial Deformities Ting Liu</p> <p>(476) Effect of computer-assisted design and manufacturing cutting and drilling guides accompanied with pre-bent titanium plates on the correction of skeletal class II malocclusion Shibo Liu</p> <p>(575) Redefining the Chin: Clinical Outcomes with Bone Cuts vs Implants Haritha K R</p>

Day 2 28 March	S222 (2/F)	S223 (2/F)
09:00-10:30	<p align="center">Free Paper 17: Cleft and Craniofacial Anomalies</p>	<p align="center">Free Paper 21: TMJ Surgery and Disorders</p>
<p>11 x [6 mins + 2 mins Q&A]</p>	<p>Moderators: Billy Cheung, Matthew Lam</p> <p>(534) LMIC country cleft craft: A Kenyan and Guinean experience Desmond Tham</p> <p>(590) Life-Changing Surgical Reconstruction of Tessier Type IV Facial Cleft: A Case Series Meyta Radhila Gwen</p> <p>(611) Application of absorbable internal fixation system in secondary rhinoplasty of patients with unilateral cleft lip Xia Zhou</p> <p>(650) Novel technique (3Ps) for faster identification and dissection of buccal fat pad flap for palatoplasty Dana Cheska Santos</p> <p>(655) The Crucial Role of Paranasal Bone Grafting in Nasal Aesthetics during Cleft Lip/Palate Orthognathic Surgery: In-depth Analysis Based on Anatomical Characteristics and Surgical Approaches Xiaotao Xing</p> <p>(685) Evaluation of Early Feeding Interventions using Z-score in Cleft Patients Nathanael Ferrel Nuralim</p> <p>(686) Infant-Driven Feeding Practice Combined with Auditory Tactile Visual Vestibular Intervention to Improve Feeding Recovery After Mandibular Distraction in Pierre Robin Sequence: A Quasi-Experimental Evaluation Yunxia Lyu</p> <p>(809) Rehabilitative Treatment of Cleft Lip and Palate: Cambodian Experience Sandeth Phan</p> <p>(841) Recurrent Craniofacial Fibrous Dysplasia CAS Contouring-Functional Reconstruction – A Case Report Tak Kun Chow</p>	<p>Moderators: Teresa Lo, Wonki Wu</p> <p>(299) Precise diagnosis of TMJ retrodiscal tissue rupture and the outcomes of open TMJ surgery Joo-Young Park</p> <p>(531) Oropharyngeal Airway Expansion: An Untold Benefit Of Total Alloplastic Temporomandibular Joint Replacement In TMJ Ankylosis Patients AIMAN NAJ</p> <p>(535) Longitudinal Assessment of Masticatory Function in Patients Undergoing Temporomandibular Joint Disc Repositioning Surgery: A Prospective Observational Study Xin Ye</p> <p>(546) Costochondral graft in pediatrics temporomandibular joint ankylosis: A retrospective study across the entire growth period Shuo Chen</p> <p>(557) Three-dimensional volumetric analysis of mandibular condyle changes in active growing condylar hyperplasia: a retrospective cross sectional study Palm Cholprasertsuk</p> <p>(574) An Artificial Intelligence Expert System for the Diagnosis of Temporomandibular Disorders Wael Talaat</p> <p>(579) Correlation Between Craniofacial Anthropometry, Jaw Relations, and Temporomandibular Disorder Severity: A Clinical Cross-Sectional Study Mohammad Gazali</p> <p>(626) The effect of modified arthroscopic disc repositioning surgery on regenerative condylar bone remodeling in juvenile patients with temporomandibular joint osteoarthritis: a retrospective cohort study Haoran Dong</p> <p>(629) Radiofrequency ablation: An Approach for Auriculotemporal Neuralgia Dhanni Gustiana</p> <p>(632) Temporomandibular joint ankylosis: A tertiary centre-based epidemiological study Shailesh Kumar</p>

Day 2 28 March	S222 (2/F)	S223 (2/F)
		(646) Comparative Evaluation Of The Role Of Injectable Platelet-Rich Fibrin With Diclofenac Sodium In Patients With Temporomandibular Disorders – A Randomized Controlled Trial Aishla Jain
10:30-11:00	Coffee Break	
11:00-12:30	Free Paper 18: Reconstructive Surgery	Free Paper 22: Orthognathic & Aesthetic Surgery + TMJ Surgery and Disorders
11 x [6 mins + 2 mins Q&A]	<p>Moderators: Karen Cheung, Yammy Tam</p> <p>(455) The Application of Intraoperative CT combined with Surgical Navigation Technology in the Reconstruction of Mandibular Defects Jianan Lin</p> <p>(478) Application of Intravascular Stenting in the Anastomosis of Vascularized Flaps for Oral and Maxillofacial Reconstruction Yan Shi</p> <p>(598) Title: Navigating Digital Discrepancies In Maxillofacial-Mandibular Reconstruction Kirti Chaudhry</p> <p>(602) Treatment strategies of donor and recipient sites for the reconstruction of intraoral composite tissue defects with the free fibular flap Ning Li</p> <p>(633) Quantitative SPECT/CT Evaluation of Blood Supply and Bone Resorption in Vascularized One-and-a-Half-Barrel Fibular Flaps for Mandibular Reconstruction Yunyang Liao</p> <p>(698) Surgical and Reconstructive Strategies for Orbital Exenteration André Eckardt</p> <p>(699) Application of a Fully Digital Workflow Based on 3D-Printed Patient-Specific Titanium Plates in Jaw Reconstruction Qingguo Lai</p> <p>(750) Pedicled Skin Flap for Reconstruction of Post-Traumatic Scalp Defects Dilyorbek Shokirov</p> <p>(770) InvogueTrend For Reconstruction and Rehabilitation Of Maxillofacial Defects: Patient Specific Implant Vellore Sampath Sharavana Kumar</p>	<p>Moderators: Joanna Ko, Xiang Li</p> <p>Orthognathic & Aesthetic Surgery</p> <p>(591) Evolution of orthognathic surgery in Cambodia: from conventional model surgery to virtual surgical planning Pengleang Cheang</p> <p>(610) Accuracy Evaluation of 3D-Printed Custom Titanium Plates in Le-Fort I Osteotomy for Asymmetric Deformities Shuo Chen</p> <p>(617) New Classification for Mandibular Arch Asymmetry Hiu Ying Ng</p> <p>(657) Augmentation of Midfacial Volume with Concurrent Bone Grafting in Orthognathic Surgery: A 3D Quantitative Study Zhulin Xue</p> <p>(727) Long-term Assessment of Combined Functional Splint-Orthognathic-Orthodontic Treatment in Skeletal Class II Patients with Idiopathic Condylar Resorption Lingyong Jiang</p> <p>(792) Digital planning and perioperative management in orthognathic surgery: a single institution experience Davaasuren Amgalanbaatar</p> <p>(835) Visual Planning in Orthognathic Surgery: Introducing the T-concept Abdulmalik Alyahya</p> <p>TMJ Surgery and Disorders</p> <p>(654) The Experience of Chronic Protracted Mandibular Dislocation Treatment: Manual VS. Surgical Reduction Xiaotao Xing</p>

Day 2 28 March	S222 (2/F)	S223 (2/F)
	<p>(840) Systematic Review: Are Vascularised Soft Tissue Free Flaps Superior to Conservative Management for Patients with Osteoradionecrosis (ORN) Without Indications for Resection and Complex Reconstruction? Siamak Saberi</p> <p>(844) Clinical Outcomes and Technical Challenges of the Anterolateral Thigh (ALT) Free Flap in Maxillofacial Reconstruction: A Single-Institutional Experience at KGMU Uma Shanker Pal</p>	<p>(674) Clinical and Immunohistochemical Analysis of Diffuse Tenosynovial Giant Cell Tumor of the Temporomandibular Joint Dandan Wang</p> <p>(681) Is There a Correlation Between Masticatory Muscle Thickness and Pain After Botulinum Toxin Injections in Myogenic TMD Patients?: A Pilot Study Sung Ok Catherine Hong</p>
12:30-13:30	Lunch Symposium	
13:30-15:25	<p style="text-align: center;">Free Paper 19: Head & Neck Oncology</p>	<p style="text-align: center;">Free Paper 23: New Technologies</p>
[6 mins + 2mins Q&A]	<p>Moderators: Alvin Kung, Karen Lai</p> <p>(318) Usefulness of Intraoperative Contrast-Enhanced Cone-Beam CT Imaging for Photoimmunotherapy Masako Fujioka-Kobayashi</p> <p>(325) Awareness Of Early Career Dentists Regarding Dental Assessments Before Head And Neck Radiotherapy Ingrid Yan Ke</p> <p>(364) Circulating-Cell Free-DNA (Ccf-DNA): A Potential And Reliable, Diagnostic And Prognostic Serological Marker In Oral Squamous Cell Carcinoma Of Head And Neck Akhilesh Kumar Singh</p> <p>(370) Shoulder dysfunction after neck dissection: Clinical characteristics and exercises in oral cancer patients Young Son</p> <p>(374) Assessment of Surgical Margins, Regional Metastasis, and Follow-Up in Determining Recurrence Rates in Oral Cancer Nasir Uddin</p> <p>(384) Lymph Node Involvement and Circulating Malignant Tumour Cells on Tumour Metastasis in Oral Squamous Cell Carcinoma Abdulrahman Alkandari</p> <p>(395) Comparing Outcomes of Pedicled Submandibular Gland Flap and Submental Artery Perforator Flap in Oral Cavity Reconstruction Maged Ali Al-Aroomi</p>	<p>Moderators: Alex Law, Syed Nabil</p> <p>(564) A Comparative Study of Head-Mounted versus Overhead Camera Systems for Video Recording in Oral Surgery Teddy Weifa Yang</p> <p>(588) Ultrasound-Based Deep Learning Model for Benign and Malignant Salivary Gland Tumor Diagnosis: A Multicenter Retrospective Study Xueer Zhou</p> <p>(667) Visibility of intraparotid facial nerve on three-dimensional double-echo steady-state with water excitation magnetic resonance imaging: A quantitative study Leihao Hu</p> <p>(668) Exploration of Green-Synthesized Copper Oxide Nanoparticles as Emerging Therapeutic Agents in Oral and Maxillofacial Surgery Effie Edsor</p> <p>(743) Rethinking How We Teach: Designing Learning for Moments That Matter Deepti Sinha</p> <p>(813) Robot-Assisted Neck Dissection via Postauricular Hairline Approach for Early-Stage Oral Squamous Cell Carcinoma Jialu He</p> <p>(834) Biodegradable magnesium implants: a journey from preclinical trials to clinical application Nikolai Redko</p>

Day 2 28 March	S222 (2/F)	S223 (2/F)
	<p>(453) Diagnosis Of Lymph Node Metastasis In Oral Squamous Cell Carcinoma By An MRI-based Deep Learning Model Le Yang</p> <p>(459) Co-targeting BMI1 And MYC To Eliminate Cancer Stem Cells In Squamous Cell Carcinoma Lingfei Jia</p> <p>(480) Defining the Optimal Margin-to-Depth-of-Invasion Ratio for Adequate Surgical Resection in Oral Cavity Cancer: An Ongoing Retrospective Study from a Single Institute (2016–2023) Ping Yi Shen</p> <p>(505) The Significance of Salvage Surgery in the Context of Chemoimmunotherapy for Recurrent/Metastatic Head and Neck Squamous Cell Carcinoma Xiao Hu</p> <p>(516) LUCAT1 Mediates MYC-targeted Suppression of Squamous Cell Carcinoma by Sponging miR-128 Yifan Wen</p> <p>(528) Raman spectroscopy and deep learning algorithms are used for the diagnosis of intraoperative oral squamous cell carcinoma lymph node metastasis Hangtsz Tsang</p> <p>(554) Effect of Tooth Treatment in Jaw Cyst Lesions on Post-Curettage Infection Rates Yan Yan Zhang</p>	
15:25-16:00	Coffee Break	
16:00-17:30	<p style="text-align: center;">Free Paper 20: Head & Neck Oncology + Sleep Apnea</p>	<p style="text-align: center;">Free Paper 24: Basic/Translational Research</p>
[6 mins + 2mins Q&A]	<p>Moderators: Joyce Li, Patrick Tai</p> <p>Head & Neck Oncology</p> <p>(558) Portable Ultrasound-Guided Pingyangmycin Sclerotherapy for Outpatients with Oral and Maxillofacial Deep-Seated Venous Malformation Qizhang Wang</p> <p>(567) Heat shock protein 70 complements and B-cell lymphoma 2 action in oral carcinogenesis Geeta Singh</p> <p>(597) Relationship between Psychological Resilience, General Self-Efficacy, and Psychological Distress in Patients with Oral Cancer: A Prospective Study Zhang Huan</p>	<p>Moderators: Joshua Chan, Wantao Chen</p> <p>(36) PDL1+ LAMP3_DC facilitates immunotherapy failure in recurrent head and neck cancer Xiaoyan Meng</p> <p>(37) The "Sugar Code" for Immune Recognition and Response in Oral Squamous Cell Carcinoma Zhonglong Liu</p> <p>(40) Clinically Relevant Radioresistant Oral Cancer Cells Exhibit Cross-Resistance to Chemotherapy and Radiation Hitoshi Miyashita</p> <p>(96) Vicryl Versus Silk Suture In Lower Third Molar Surgery: A Systematic Review Qing Hui Fang</p>

Day 2 28 March	S222 (2/F)	S223 (2/F)
	<p>(608) Misdiagnosis of Pediatric Head and Neck Masses as Hemangioma and Vascular Anomalies: A Case Series Analysis Wenli Wu</p> <p>(694) Refined Transoral Approach for Upper Cervical Spine Pathology: Clinical Application and Operative Advantages Kalia Labitta Yudhasoka</p> <p>(717) Breaking Silos & Future Directions in Oral Malignancy Clinical Care by Promoting Frozen Section an underutilized Technique to replace incision biopsy Shahjahan Katpar</p> <p>(718) TRAF6 inhibition suppresses vasculogenic mimicry in oral squamous cell carcinoma via targeting IL-33/ST2L-induced EMT Xing Gao</p> <p>(723) Results of Surgical Treatment of Patients with Pleomorphic Adenomas (PA) of Major Salivary Glands Igor Brodetskyi</p> <p>Sleep Apnea</p> <p>(109) Experimental study on immune regulation of zinc alloy implants in bone repair and in promoting the healing of senile osteoporotic fractures Guangsen Zheng</p>	<p>(192) Smart Tumor-Penetrating Nanocluster for Dual-Enhanced Magnetic Resonance Imaging and Synergistic Photothermal-Chemodynamic Treatment of Oral Squamous Cell Carcinoma Hongtao Xu</p> <p>(201) Immunotherapy-Induced Sialadenitis: Sjögren's syndrome or a new sialadenitis Shuyuan Song</p> <p>(207) A preliminary exploration of room-temperature phosphorescence nanoprobe for tumor imaging Han Cheng</p> <p>(242) Tetrahedral Framework DNA Enables Bone-Targeted siRNA Delivery: Ferroptosis Modulation for Diabetic Osteoporosis Therapy Xuehan Tang</p> <p>(255) Hypercoagulable state remodels the tumor neurovascular unit to promote tongue squamous cell carcinoma progression Wan Duan</p> <p>(271) FDH Downregulation Promotes Oral Squamous Cell Carcinoma Progression through Metabolic Reprogramming and Subsequent Impairment of CD8+ T Cell Function Yi Qu</p> <p>(276) Time-Series CRISPR Screen Uncovers Genes Responsible for Malignant Transformation of Oral Leukoplakia Yicun Li</p>

DAY 3, 29 March 2026 (Sunday)

Day 3 29 March	Theatre 1 (1/F)	Theatre 2 (1/F)	Conventional Hall C (1/F)	S221 (2/F)
08:00-09:00	Free Paper 25: Others	Free Paper 26: Dentoalveolar Surgery	Free Paper 27: TMJ Surgery and Disorders	Free Paper 28: Oral & Maxillofacial Pathology + Dentoalveolar Surgery
7 x [6 mins + 2mins Q&A]	<p>Moderators: Matthew Lam, Brian Wong</p> <p>(213) Mediastinal and retrosternal access in Oral, Maxillofacial, Head & Neck Surgery Leo Cheng</p> <p>(214) Solutions for challenging open tracheostomy cases not suitable for percutaneous route Leo Cheng</p> <p>(761) Retrospective Analysis of 68 Cases of Medication Related Osteonecrosis of the Jaw (MRONJ) Jia Xiao Tong Yao</p> <p>(768) Odontogenic Maxillary Sinusitis in the Diagnostic Practice of University Hospital General Medicine: A Review Emphasizing Multidisciplinary Collaboration with Oral and Maxillofacial Surgery and Otolaryngology Toshimasa Yatsuoka</p> <p>(774) Growth Restriction & Migration of Paediatric Craniomaxillofacial Osteosynthesis: A Scoping Review Timothy Sng</p> <p>(849) Advances in Salivary Gland Surgery Barbara Woodhouse</p>	<p>Moderators: Joshua Chan, Joyce Li</p> <p>(491) Hospitalisations Related to Wisdom Teeth: Insights from Admissions Data Terence Lau</p> <p>(526) Preliminary study on the diagnostic grading method of MRI imaging manifestations of lingual nerve injury Jing Wang</p> <p>(604) Bony-mucoperiosteal flap for preserving maxillary tuberosity in bony impacted upper third molar surgery Wei Qi</p> <p>(656) Application of pedicled buccal fat pad/mucoperiosteal composite flap technique to prevent and seal oroantral fistula Jiaojiao Zou</p> <p>(676) Robot-assisted precise guidance for flapless impacted tooth extraction Xiang Liang</p> <p>(677) Clinical Application of Digital Technology in Alveolar Surgery Fei He</p>	<p>Moderators: Tracy Ho, Crystal Mak</p> <p>(739) Intracranial Extension of Temporomandibular Joint Ganglion Cyst– Resection via Transfacial Zygomatic Approach: A Case Report Tak Kun Chow</p> <p>(784) Three-dimensional Morphology And Position Of The Temporomandibular Joint In Children With Disc Displacement: Analysis Of MRI And CBCT Kun Qi</p> <p>(785) Effects Of Anterior Repositioning Splint On Temporomandibular Joint Stress And Facial Symmetry In Patients With Temporomandibular Disorders And Functional Mandibular Deviation: A Prospective Study Juan Wang</p> <p>(805) The Long-term Efficacy of Hyaluronic Acid Injection for Treatment of Symptomatic Temporomandibular Joint Subluxation Xing Long</p> <p>(812) Chronic Protracted Temporomandibular Joint Dislocation: A case report highlighting management challenges and the role of multidisciplinary intervention Brandon Michael Leung</p> <p>(821) Injectable Platelet-Rich Fibrin Enhanced Arthrocentesis for Temporomandibular Joint Internal Derangement: A Randomized Controlled Trial Dhanya Dhanya</p>	<p>Moderators: Christine Cheung, Joanna Ko</p> <p>Oral & Maxillofacial Pathology (769) Influence of sex hormones on the risks of alveolar osteitis after dental extraction Zainab Moudahik</p> <p>(797) Intralesional denosumab for the management of Giant cell lesions of jaws Vidya Rattan</p> <p>(837) Role of conservative care in Aggressive Benign Odontogenic Tumors: Our experience on Filipino patients in a tertiary hospital in Manila Jay Hansel Tabije</p> <p>Dentoalveolar Surgery (460) A clinical retrospective analysis of implant-associated medication-related osteonecrosis of the jaw Gyu-jo Shim</p> <p>(722) Comparative Effects of A-PRF and Oral Dexamethasone on Postoperative Complications Following Third Molar Extraction: A Split-Mouth Randomized Controlled Trial Sava Baydar</p> <p>(728) Development and Application of an AI-Based Intelligent Diagnosis and Risk Assessment System for Impacted Mandibular Third Molars Using Digital Navigation Sijia Na</p> <p>(853) Unexpected Haemorrhage Following Routine Third Molar Extraction: Implications of</p>

Day 3 29 March	Theatre 1 (1/F)	Theatre 2 (1/F)	Conventional Hall C (1/F)	S221 (2/F)
			(860) The clinical efficacy study of TMJ arthroscopic versus open discepxy for the management of anterior disc displacement without reduction (ADDwoR) Miao Zhou	Undiagnosed von Willebrand Disease for Dental Practice and Public Oral Health Brendan Forrest

Day 3 29 March	S222 (2/F)	S223 (2/F)
09:00-10:15	Free Paper 29: Craniomaxillofacial Trauma	Free Paper 31: Basic/Translational Research
9 x [6 mins + 2mins Q&A]	<p>Moderators: Karen Cheung, Xiang Li</p> <p>(519) Sensory Deficits Following Trigeminal Nerve Injury in Patients with Maxillofacial Fractures: Clinical Characteristics and Impact on Quality of Life Yuming Liu</p> <p>(545) The Stability Evaluation of Two Internal Fixation Patterns of Extracapsular Condylar Fracture Based on One Novel Measuring Method Haijun Gui</p> <p>(552) Conservative Management of Mandibular Fractures in Pediatric Patients during the Growing Phase with Splint Fiber and Ligature Arch Wire Lifeng Li</p> <p>(553) Clinical Application of the Buccal Fat Pad Flap in the Repair of Maxillary Defects After Curettage of Maxillary Osteomyelitis Lifeng Li</p> <p>(628) Sideburn (Preauricular Hairline) Approach for Zygomatic Arch Fractures: A Direct-Vision Corridor via the Superficial Temporal Fascia Jianfei Zhang</p> <p>(796) Roof or Floor? Transantral Repair of Isolated Orbital Floor Blowout Fractures: Two Cases and Clinical Recommendations Sheryl Koh</p> <p>(818) Single Lag Screw Versus Miniplate Osteosynthesis in Mandibular Condylar Fractures Srushti Vaidya</p>	<p>Moderators: Wantao Chen, Alex Law</p> <p>(279) The mechanism of rapid wound healing of palatal mucosa Yuqiong Zhou</p> <p>(348) Evaluating Bio-Hemosponge For Hemostatic And Wound Healing Properties In Tooth Extraction Socket: Study On Diabetic Rats Model Andi Ayodhya Chandra Dirawan</p> <p>(469) Pharmacological inhibition of MYC to mitigate chemoresistance in preclinical models of squamous cell carcinoma Shuo Liu</p> <p>(472) Integrin-linked kinase regulation by M2 macrophages facilitates peripheral nerve compensation to restore lower lip sensation Mingzhe Bao</p> <p>(483) Mitochondria-targeted MET-MA Carbon Dots Attenuate Radiation-Induced Bone Injury by Preventing Senescence via miMOMP Jiajin Yang</p> <p>(486) Histone Lactylation Drives Cisplatin Resistance in Oral Cancer via LOX-1-Mediated Lipid Raft Assembly Ke Li</p> <p>(738) Regulatory Role of Tooth Germ Development in Meckel's Cartilage Degradation and Mandibular Development During Embryogenesis Jingya Li</p>

Day 3 29 March	S222 (2/F)	S223 (2/F)
	<p>(820) Virtual Surgical Planning and 3D Custom-Made Implants in the Management of Orbital Floor Fractures: A Case Control Study Sara Tramontano</p> <p>(827) Surgical Treatment for Mandible Subcondylar Fractures With and Without 3-D Printed Model Guides: A Comparative Analysis of Surgical Outcome Yu Tai Tong</p>	<p>(745) cGAS-STING Signaling at the Crossroads of Tumor-Cell Survival and Anti-Tumor Immunity: Mechanisms and Therapeutic Implications Jingyuan Li</p> <p>(800) A Dual-Responsive Theranostic Probe for Targeted Diagnosis and Treatment of Temporomandibular Joint Osteoarthritis Linli Jiang</p>
10:15-10:45	Coffee break	
10:45-12:15	<p style="text-align: center;">Free Paper 30: Sleep Apnea + Craniomaxillofacial Trauma</p>	
[6 mins + 2mins Q&A]	<p>Moderators: Alvin Kung, Jessica Yau</p> <p>Sleep Apnea</p> <p>(431) Salivary Inflammatory Biomarkers in Obstructive Sleep Apnoea: A Systematic Review Yin Suan Tee</p> <p>(507) Sleep bruxism among orthodontic patients with moderate and severe IOTN: An explorative study utilising type III polysomnography data Yung Hua Wong</p> <p>(576) Respiratory Improvement in Sleep Surgery is Associated with Decreased Arousal index and Light Sleep: A 15-year Retrospective Study Teresa Hau Yu Lo</p> <p>(669) Evaluation of LeFort III Osteotomy Distraction Osteogenesis with an Immediate Advancement Gap During the Latency Period for Children with Syndromic Craniosynostosis and Obstructive Sleep Apnea Liu Yue</p> <p>(691) Anatomic and Constitutional Predictors of AHI Improvement Following Maxillomandibular Advancement for Obstructive Sleep Apnea Adrian Ming-Chi Hsieh</p> <p>(705) Modified vs Conventional Maxillomandibular Advancement (MMA) in Asian OSA patients Catherine Sung Ok Hong</p> <p>(713) Is the Index of Orthodontic Treatment Needs (IOTN) a viable adjunct screening tool for oral health practitioners to predict underlying sleep-physiology derangement? A PSG-Based Study Shean-woei Lee</p> <p>Craniomaxillofacial Trauma</p>	

Day 3 29 March	S222 (2/F)	S223 (2/F)
	<p>(410) Three-dimensional vision applied to Planning, design, elaboration of customized implants with titanium mesh for craniofacial reconstruction with data measurements 3D tomography and its surgical application José Armando García Araiza</p> <p>(843) Surgical treatment of patients with fracture of the lower orbital wall using balloon technology Stepan Martynov</p>	
12:20-13:20		
13:20-13:50	Closing Ceremony	

** Program is subject to change without prior notice.*
