

**What is the correct ratio between EFTSL and informal learning seats on campus? Are we just pulling a rabbit out of a hat?**

*Caitlin Murray, Woods Bagot*

This presentation will look at different factors that influence the quantity and type of informal learning spaces on campus (both geographic and demographic), to question what the appropriate ratio between EFTSL and informal learning seats is, or even whether or not a one size fits all space metric can be applied.

**Caitlin** is a Designer at Woods Bagot, specialising in the education sector. She is passionate about education futures and the impact of built form in creating positive learning outcomes. She has worked closely with Universities and TAFEs across Victoria and abroad to develop bespoke education strategies. In particular, her focus is on developing Strategic Asset Master Plans; balancing between built infrastructure & organisation operations and identifying future needs of the University to formulate campus frameworks & development plans to realise their vision.
