Digital Agility: Future proofing technology in learning spaces
Mark McCormack, Queensland University of Technology

In a world where change, disruption and transformation are commonplace, it is imperative to ensure our learning spaces keep abreast with the needs of our students. This presentation will provide a snapshot of QUT's collaborative learning spaces, consider approaches taken to understand future needs, and look at ways to embed and integrate technologies while still providing the flexibility to adapt to change.

Bio: Mark McCormack is the Director of Learning Environments and Technology Services at QUT in Brisbane. Mark has over 25 years' experience in the higher education sector and has held various project management, change management and leadership positions across this time. Mark is currently responsible for the technology implementation into the $75M Education Precinct development at QUT, and overseeing the direction for technology in learning environments across the university.
