

Kimberley Wilkinson, *Project Director, La Trobe University*

Kimberley is a Project Director at La Trobe University and is the manager responsible for delivering the 624 bed Student Accommodation Project at their Bundoora campus. Utilising new construction technologies within the CLT field, La Trobe are realising their vision to be a sustainably responsible University and constructing this fantastic new development not only to 5 star green star guidelines, but to a Carbon Neutral target.

Sustainable innovation – La Trobe’s new student accommodation building

This presentation will be based on a new cross-laminated timber building at the Bundoora campus. The new building is the 2nd largest cross laminated timber (CLT) construction in Australia and consists of 624 student rooms, 18,000m² GLA - \$100m project.
