

## Dr Helen Brasch

Dr Helen Brasch

MBChB (Otago), BMedSc (Otago), FRCPA

Anatomical Pathologist

Dr Brasch completed her medical degree at Otago University, in Dunedin, then commenced pathology training at Auckland Hospital. She completed her Fellowship in Wellington and has been an anatomical pathologist at Hutt Hospital since 2000. Her areas of special interest include vascular anomalies, breast pathology and head and neck tumours . She is member of ISSVA.

Having collaborated with Swee Tan since 2002, on its opening Helen became a Research Fellow at the Gillies McIndoe Research Institute, where she adds her anatomical pathology expertise to the research team for the projects they undertake.
