AREXVY (FOR HCPs)

RSV infection causes a substantial burden of disease in older adults.¹⁻⁴

RSV and influenza infection carry a similar risk of hospitalisation and mortality in older adults.¹

Hospitalisation rates from RSV infection increase with age in adults.^{1,2} Older adults with certain chronic medical conditions have an increased risk of RSV hospitalisation.^{3,4}

AREXVY (AREXVY) is a live-attenuated RSV vaccine.

CONSUMER DISEASE AWARENESS RESOURCES

How you can stay informed with GSK.

GSK believes it is important to provide timely and useful information related to our medicines and vaccines to ensure you and your patients are well informed about GSK's product information. If you would like to embark on a digital journey with us, we will need your email consent.

Examples of what you can expect to receive:

- Scientific updates
- Educational webinars and events (e.g. webinar invitations and post symposium highlights)
- Information about our products
- Disease awareness materials (e.g. patient story videos, brochures)
