

# Friday 17 October

0900 - 1200

Trainee Workshop

1200 - 1300

Lunch - Industry Exhibition Area Scientific

## Scientific Session 1

**Moderator I** Amila Siriwardana & Kylie Gallagher

---

1300	1.1	Perpendicular needle angulation while administering intravesical botox may lead to bladder perforation: A tale of two needles <b>Jerryn Matthews</b>
1307	1.2	Blunt vs penetrating bladder injuries in a South African hospital over ten years: important differences in presentation, management and outcomes. <b>Jerryn Matthews</b>
1314	1.3	Adherence to the renal colic pathway by emergency physicians in a regional, New Zealand hospital <b>Jerryn Matthews</b>
1321	1.4	Primary B-Cell Lymphoma of the Renal Pelvis Identified Following Robotic Nephroureterectomy: A rare case report and review of the literature <b>Thomas McMaster</b>
1334	1.5	Needle Tract Seeding: A Rare Case of Metastatic Prostate Cancer Recurrence within a Percutaneous CT Guided Needle Biopsy Tract <b>Thomas McMaster</b>
1341	1.6	Metastatic Leydig Cell Tumour in a Patient with Synchronous Prostate Cancer. A Case Report and Review of Literature <b>Nicholas Gillman</b>
1348	1.7	Efficacy of preoperative weight loss interventions in obese patients undergoing urological surgery: A narrative review <b>Thomas Begg</b>

# Friday 17 October

1355	1.8	Urologic Intra-Operative Consultation: Trends and Injury Outcomes Over Five Years <b>Opeyjesu Afolabi</b>
1402	1.9	Resisting Temptation: Printing Protection for Anaesthetists in Robotic Surgery <b>Tayla Fay</b>
1409	1.10	Undocking Under Pressure: Simulation Training for Robotic Surgical Teams <b>Tayla Fay</b>
1416	1.11	Registrar-Led Rural Outreach with Consultant Telementoring: Early Patient-Reported Outcomes from a Surgical Clinic in Gympie, Australia <b>Tayla Fay</b>
1423	1.12	Urethral Polyembolokoilamania: A Systematic Review of the Literature <b>Jonathon Carll</b>
1430	1.13	Patterns and Predictors of Postoperative Morbidity Following Inguinal Lymph Node Dissection for Penile and Cutaneous Malignancies <b>Yizhou "Charles" Ruan</b>
1440	1.14	Long-Term Survival After Inguinal Lymph Node Dissection: Comparative Outcomes in Penile Squamous Cell Carcinoma and Other Malignancies <b>Yizhou "Charles" Ruan</b>
1447	1.15	Penile lymphoepithelioma-like carcinoma: A rare variant of human papillomavirus-associated penile cancer <b>Jeremy Cheng</b>
1454	1.16	Penile Cancer Outcomes in Regional Australia: Delivering Equity of Care Closer to Home <b>Sachin Joshi</b>

1501

**AFTERNOON REFRESHMENTS - EXHIBITION AREA**

# Friday 17 October

## Scientific Session 2

**Moderator I** Nigel Duglison & Hans Goosen

---

1530	2.1	Audit of Robotic-Assisted Retroperitoneal Lymph Node Dissection for Metastatic Testicular Cancer: Efficiency, Complications & Oncological Outcomes <b>Hannah Flynn</b>
1540	2.2	Robotic Robotic-Assisted Retroperitoneal Lymph Node Dissection - My Experience <b>Ben Thomas</b>
1555	2.3	Premature Ejaculation: Aetiology and Treatment Strategies <b>Nicholas Gillman</b>
1602	2.4	Beyond the Pills: Three Decades of Invasive Treatments for Erectile Dysfunction in Australia (1996–2024) <b>Nicholas Gillman</b>
1609	2.5	Erectile Dysfunction Management in the Age of Artificial Intelligence: Does ChatGPT provide reliable and evidence-based answers? <b>Nicholas Gillman</b>
1616	2.6	Under the Microscope: Risk–Imaging Mismatch in Microscopic Haematuria <b>Nicholas Gillman</b>
1631	2.7	Microscopic Vasectomy Reversal- 30 Years of Experience <b>Neil Smith</b>
1638	2.8	A safe, rapid and reliable tool for determining testicular viability? Intraoperative indocyanine green fluorescence angiography during testicular detorsion surgery: a review of the literature <b>Matthew Wright-Smith</b>
1645	2.9	Features of prostate abscess due to burkholderia pseudomallei compared to typical pathogens: a review of 101 cases <b>Matthew Wright-Smith</b>

## Friday 17 October

1652	2.10	Prolonged-duration extra-anatomic stenting with Cook Paterson-Forrester subcutaneous stents: experience from 23 cases <b>Matthew Wright-Smith</b>
1659	2.11	Bladder and Upper Tract Urothelial Carcinoma in Transplant Recipients: Treatment Strategies and Oncologic Outcomes <b>Zhong Li Titus Lim</b>
1706	2.12	The Oldest Twist in the Book: Australia's Oldest Case of Testicular Torsion at Age of 75 and Systematic Review of Literature <b>Lu Yu Kuo</b>
1713	2.13	Introduction of UroLift for Symptomatic Benign Prostatic Hyperplasia at a Queensland Public Hospital: An Early Single Centre Experience <b>Lu Yu Kuo</b>
1720	2.14	Something About PCOR <b>Marlon Perera</b>
1735		<b>WELCOME RECEPTION</b>

## Saturday 18 October

### Scientific Session 3

**Moderator** | Adam Pearce & Simon Pridgeon

---

0800	3.1	PSMA PET/CT and it's role in staging intermediate-risk prostate cancer: A systematic review and meta-analysis <b>Jonathon Carl</b>
0807	3.2	An audit of PSMA Immunohistochemistry staining on transperineal prostate biopsies: A single surgeon experience <b>Jonathon Carl</b>
0814	3.3	Active surveillance versus radical treatment for high-volume low-risk prostate cancer: a tertiary centre experience <b>Tran Ngoc An Huynh</b>

# Saturday 18 October

0821	3.4	Focal irreversible electroporation for the treatment of localised prostate cancer: A systematic review <b>Jeremy Cheng</b>
0831	3.5	Patient selection and outcomes of focal IRE for localised prostate cancer <b>John Yaxley</b>
0846	3.6	Treatment of the Primary in M1 Prostate Cancer <b>Matt Roberts</b>
0901	3.7	Early experience with Histolog in nerve-sparing prostatectomy <b>Marlon Perera</b>
0916	3.8	ARPIs in Prostate Cancer <b>Chun Loo Gan</b>
0931	3.9	Stereotactic Radiation in Prostate Cancer <b>David Pryor</b>
0946	3.10	Urethroplasty Outcomes for Male Urethral Strictures in Lichen Sclerosus (LS) versus Non-LS Etiologies: A Regional Hospital Single-Surgeon Retrospective Study <b>Mohamad Fairuz Bin Mohamad</b>
0953	3.11	Urethral Penile Intraepithelial Neoplasia (PeIN) Presenting with Persistently Positive Urine Cytology in the Absence of External Lesions: A Case Report and Literature Review <b>Steven Nguyen</b>
1000	3.12	Urethral Stricture Implications In Prostate Cancer Treatment <b>Devang Desai</b>
1015		<b>MORNING REFRESHMENTS - EXHIBITION AREA</b>

# Saturday 18 October

## Scientific Session 4

**Moderator I** Devang Desai & Kate Gray

---

1045	4.1	The Introduction of Robotic Surgery at a Regional Centre <b>Ashan Canagasingham</b>
1055	4.2	Transurethral en bloc resection versus standard resection of bladder tumour – A critical appraisal of a randomised, multicentre, phase 3 trial. <b>William Yaxley</b>
1107	4.3	Critical Apraisal of the Aranote Trial: does Darolutamide + ADT Improve Overall Survival and Progression Free Survival in mHSPC Compared to ADT Monotherapy <b>Thomas Whish-Wilson</b>
1119	4.4	Critical appraisal of a randomised trial of risk-adapted screening for prostate cancer in young men - Results of the first screening round of the PROBASE trial. <b>Dhanika Samaranayake</b>
1131	4.5	A Critical Appraisal of Extended Pelvic Lymph Node Dissection in Prostate Cancer <b>Andrew Morton</b>
1143	4.6	Treatment Patterns and Outcomes of Small Cell Carcinoma of the Bladder: A Single-Centre Audit <b>Andrew Morton</b>
1153	4.7	Open Radical Cystectomy in an Australian Tertiary Centre: Updated Outcomes Compared to Local and International Standards <b>Thomas McMaster</b>
1200	4.8	Bladder Cancer Variant Histology: A Five-Year Retrospective Cohort Study <b>Thomas McMaster</b>
1207	4.9	Intravesical Gemcitabine and Docetaxel vs. re-induction Bacillus Calmette Guerin as first line salvage therapy for non-muscle invasive bladder cancer <b>Tran Ngoc An Huynh</b>

# Saturday 18 October

1214	4.10	FDG-PET/CT vs. CT for lymph node staging of bladder cancer prior to radical cystectomy: impact on sensitivity, specificity and survival outcomes <b>Tran Ngoc An Huynh</b>
1221	4.11	Accuracy and limitations of ureteroscopy biopsy in the staging and grading of upper tract urothelial carcinoma: a retrospective analysis in a large tertiary centre <b>Tran Ngoc An Huynh</b>
1228	4.12	Utility of PET FDG staging for bladder cancer patients undergoing cystectomy in a Queensland Tertiary Hospital <b>Haidar Hadri Bin Abd Wahab</b>
1235	4.13	A rare case of urothelial carcinoma with trophoblastic differentiation: diagnostic and management challenges <b>Tegan Lun</b>
1242		<b>ANNUAL BUSINESS MEETING</b>
1242		<b>LUNCH - EXHIBITION AREA</b>
1900		<b>Conference Dinner</b>

# Sunday 19 October

## Scientific Session 5

**Moderator** I Handoo Rhee & Matt Roberts

---

0800	5.1	Urinary Biomarkers for Early Detection of Kidney Injury Following Extracorporeal Shock Wave Lithotripsy: A Systematic Review <b>Maanya Bhardwaj</b>
0807	5.2	Effectiveness of Simulation-Based Training in Urology: A Systematic Review of Educational Outcomes and Clinical Skill Transfer <b>Maanya Bhardwaj</b>
0814	5.3	Low-Intensity Extracorporeal Shock Wave Therapy (LI-ESWT) for Erectile Dysfunction in Patients Post Prostatectomy: A Systematic Review <b>Maanya Bhardwaj</b>

# Sunday 19 October

0821	5.4	Evaluation of the efficacy of Remote Ischemic Preconditioning in reducing renal injury post partial nephrectomy: A Systematic Review <b>Maanya Bhardwaj</b>
0828	5.5	Where We Stand: The Current Landscape of Artificial Intelligence in Urolithiasis <b>Bertha Ching Wai Lam</b>
0835	5.6	Single-use ureteroscopy: a narrative review of current devices, clinical outcomes, & cost <b>Tegan Lun</b>
0842	5.7	Adjuvant Therapies for RCC <b>Chun Loo Gan</b>
0857	5.8	Between Graft and Gleason: Managing Prostate Cancer in Kidney Transplant Patients <b>Zhong Li Titus Lim</b>
0904	5.9	Managing Kidney Cancer Post-Transplant: A Comparative Perspective on Native and Allograft Tumors <b>Zhong Li Titus Lim</b>
0911	5.10	From Rejection to Retention: Managing LUTS in Renal Allograft Recipients <b>Zhong Li Titus Lim</b>
0918	5.11	The role of a diagnostic PSMA-PET scan in the evaluation of an elevated PSA <b>John Yaxley</b>
0933	5.12	The history of Urology in Queensland <b>Nigel Dungleison</b>
0948		<b>MORNING TEA - EXHIBITION AREA</b>

# Sunday 19 October

## Scientific Session 6

Moderator | Peter Burke & Andre Joshi

---

1000	6.1	Laparoscopic Partial Nephrectomy versus Microwave Ablation in the Treatment of Renal Masses: a Retrospective Cohort Analysis <b>Thomas McMaster</b>
1010	6.2	Percutaneous ablation of small renal masses with curative intent: A 5 year, retrospective case series <b>Nick Brown</b>
1025	6.3	Stereotactic radiation for small renal masses <b>David Pryor</b>
1040	6.4	Robotic Partial Nephrectomy - Tips & Tricks <b>Anojan Navaratnam</b>
1055	6.5	Patient Selection for Small Renal Mass Treatment <b>PANEL</b>
1125		<b>LUNCH - EXHIBITION AREA</b>
