Plum Blossom Divination, also known as Mei Hua Yi Shu (梅花易数), is a sophisticated divination method that utilizes trigrams, time, imagery, and numerical patterns to derive a Gua (hexagram). It is a specialized subsystem of **Yi Jing Divination**.

THIS WORKSHOP COVERS:

- Construction of Plum Blossom charts using:
 - Time-based calculations
 - Numerical interpretations
- Techniques for analyzing charts
- Interpretation of outcomes across key life areas:
 - Health & Illness
 - Career Prospects
 - Academic Success
 - Relationships

With Way Fengshui Academy's Professional Teaching Methodology, blending theory and practical application, mastering this ancient art is both straightforward and rewarding.
