

IS PACMaC

IN-SITU PAEDIATRIC ANAESTHESIA CRISIS MANAGEMENT COURSE,
A PANNZ & SPANZA INITIATIVE

120 Minute Refresher Course

In Situ-Paediatric Anaesthesia Crisis Management Course (IS PACMaC) is a simulation-based course providing opportunity to practice paediatric anaesthesia crisis management in your environment with your perioperative teams. IS PACMaC is designed for anaesthetists and teams who care for children in the theatre environment.

This refresher course is only available for Hospitals with prior course experience. For Hospital's new to the course, please select the half day or full day course.

Course Details

- Paediatric resuscitation refresher
- CPR and IO skills practice, 2 immersive scenarios, each followed by a debrief
- Scenarios will cover paediatric anaesthesia emergencies with both shockable and non-shockable etiology

ANZCA CPD

All courses will be eligible for ANZCA CPD points under the Practice Evaluation (reviewing performance) team scenario section and Cardiac Arrest emergency response.

Participants

Course content can be tailored to suit the needs of the hospital and the time available. It applies to regional centres and private hospitals as well as tertiary paediatric facilities. The course content is suitable for the multidisciplinary peri-operative team which may include; anaesthetists, surgeons, anaesthesia assistants and nurses.
