HEALTH

evoBrix X™
Technology Platform

Acentra Health's modular evoBrix X™ healthcare platform is regarded as the most advanced MMIS platform in the market, supporting states' public health enterprise modernization efforts.

Atrezzo
Technology Platform

The Atrezzo technology platform integrates essential care management features and all relevant data into one solution. Atrezzo supports an array of foundational healthcare services, including Utilization Management, Care Management, and Eligibility & Assessments.

Expertise Across the Healthcare Delivery System

Delivering maximum value and impact to government healthcare programs

Claims & Encounter Management
Deploy sophisticated systems to reduce claims and encounter processing time and to increase accuracy, adhering to current requirements and future program needs.

Provider Enrollment & Engagement
Our CMS-certified provider engagement services suite improves provider and payer relationships through digital enrollment, automated screening, self-service maintenance, and claims submission status.

Care Management
Supporting programs in decreasing unnecessary inpatient and emergency room use, and improving coordination of care between medical and behavioral health.

Data Interoperability & Analytics
Meet rule requirements by sharing claims data via a secure API, while utilizing HL7® FHIR®, USCDI, and CARIN Blue Button® standards.

Clinical Assessments, Eligibility & Enrollment
Facilitation and application processing support for Level of Care Assessments, Preadmission Screening and Resident Review (PASRR), and Behavioral Health Needs Assessments.

Quality & Compliance Oversight
Benefit from one of the largest quality improvement organizations (QIO) in the industry, serving government-sponsored healthcare programs.

Experience Acentra Health

Quickly adapt to changing business requirements with a flexible, configurable system.

Let our trusted experts show you how we can help enhance patient and provider experiences and lower your state's administrative costs.
