

# About Molina Healthcare

## National Overview

Our mission is to improve the health and lives of our members by delivering high-quality health care.

We provide **low cost, effective and appropriate access to care**, along with reliable service to both members and providers.

With record enrollment due to COVID-19 and new federal redetermination requirements, our plans across the country are working with our state partners to ensure all eligible individuals retain coverage and access to needed care.

Formed in 2020, the **MolinaCares Foundation** is an independent charitable organization committed to investing in building stronger communities. Since 2021, the Foundation has provided more than 750 grants across 26 states.
