Saint Anselm College is approved as a provider of nursing continuing professional development by the Northeast Multistate Division Education Unit, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation

Planned Topics

Dealing with Difficult People:

Strategies for managing challenging interactions with compassion and professionalism

Mitigating Conflict:

Tools for identifying and resolving conflicts effectively in hospice and palliative care settings

Cognitive Rehearsal: Practice Session on Saying the Hard Things:

Hands-on training to build confidence and skill in addressing sensitive topics

Hospice Options Across the Lifespan:

A comprehensive look at hospice care tailored to different stages of life

Cultural Differences in Hospice and Palliative Care:

Exploring how cultural backgrounds influence end-of-life care preferences and practices

Finding Peace at End of Life

Techniques and approaches for fostering peace and comfort for patients and their families.

Learning Outcome:

By the end of the program, participants will enhance their knowledge about managing complex care situations, and describe ways to support diverse cultural and ethical needs, and conduct sensitive conversations in-home care, hospice and palliative care settings.

Program Description:

This conference provides an essential opportunity for healthcare professionals to explore the complexities and rewards of hospice and palliative care. Sessions are designed to enhance skills in navigating difficult conversations, addressing conflict, and fostering meaningful connections with patients and families.

Target Audience:

Hospice and palliative care nurses

APRNs in hospice and palliative care

Social workers and counselors in hospice and palliative care settings

Chaplains and spiritual care providers

Long-term care and home care providers involved in hospice care

Administrators and leaders in hospice organizations

Any healthcare professionals who provide care or support to patients and families facing end-of-life challenges
