

2026 Internet Crimes Against Children (ICAC) and Human Trafficking Investigation Conference

The 2026 Internet Crimes Against Children (ICAC) and Human Trafficking Investigation Conference focuses on online criminal activity against children, exploitation, and the prosecution of related cases, as well as education on sex and labor trafficking investigations involving both minor and adult victims/survivors. Attendees will learn to identify victims and perpetrators and respond using trauma-informed and victim-centered approaches across both ICAC and human trafficking investigations.

Featured Sessions

Evolving Threats: 764/Com/Sexual Online Exploitation

—Emmah Pieper, Criminal Intelligence Analyst, MN BCA

This session provides an overview of 764/The Com and related decentralized networks that target vulnerable minors through manipulation, sextortion, sexual exploitation, violence, and other criminal activity. Learn to recognize key terminology, symbols, tactics, trends, and behavioral indicators—and better identify potential victims, offenders, connected networks, and emerging threats to public safety.

Sextortion: Response, Resources and Victim Impact

—Rebecca Kotz, Education Coordinator

Research indicates that 1 in 5 teens have experienced sextortion, but people of any age or gender can be targeted. This presentation discusses the various types and motivations of sextortion, including the impact of artificial intelligence, as well as the grooming and manipulation tactics offenders may use to identify and exploit victims. Learn about the resources that are available for families, caregivers and those seeking victim services and support.

December 9-11, 2026
