

April 14-15, 2025 | St. Paul

Improve your instructional skills using scientifically proven teaching strategies!

Enhancing your teaching effectiveness can lead to improved student engagement, better learning outcomes, and highly successful employees. This Instructor Development training blends real-world law enforcement scenarios with cutting-edge instructional strategies. You'll improve your teaching skills by learning and applying integrative adult learning strategies and focusing on advanced facilitation techniques, instructional design, ethics, and assessment tools to elevate classroom engagement for real-world application. Learn how to effectively engage with your students for better learning outcomes.

Objectives of this course include:

- **Recognizing real-world teaching challenges in law enforcement contexts and problem-solving strategies in high-pressure teaching situations.**
- **Improving presentation techniques for engaging and effective teaching.**
- **Exploring adult learning theories and applying them in law enforcement training.**
- **Enhancing facilitation skills to encourage critical thinking and effective class participation.**
- **Exploring ethical dilemmas and sensitive topics.**
- **Discussing and applying Bloom's Taxonomy to create impactful lessons.**

INSTRUCTORS

Dr. Shawn Williams, Director of Police Training and Education, Minneapolis Police Department

Dr. Ronald Schwint, AAS Law Enforcement Instructor, Minnesota West Community and Technical College

AUDIENCE

Current Minnesota peace officers seeking to improve their teaching skills and integrate advanced methodologies into their instructional practices.
