

Civil Nuclear Energy Workshop: Partnering for Implementation

OCTOBER 8-9, 2024 | KNOXVILLE, TN

Janez Gale

*Secretary of the Ministry of the Environment,
Climate, energy
Ministry of the Environment, Climate, and Energy*

Dr. Janez GALE, Head of Nuclear energy department at the Directorate for Energy, joined the Ministry of the Environment, Climate, and Energy in the summer of 2022. He focuses on spatial planning of energy infrastructure projects of national importance and is the ministry's expert for the nuclear energy related topics.

After studying hydraulic engineering at the University of Ljubljana, he worked as a young researcher at the Jožef Stefan Institute and later earned a Ph.D. in nuclear engineering. He then spent 15 years in various roles in a Slovenian company specializing in hydropower machinery. His expertise allows him to address complex energy challenges and contribute to sustainable energy policies for Slovenia's future. He is committed to introducing low-carbon technologies, modern energy policies, and environmental sustainability.

Organization Overview:

The Energy Directorate within the Ministry of the Environment, Climate and Energy in accordance with the applicable regulations, the Energy Principles of Slovenia, the National Energy and Climate Plan and the adopted action plans and operational programs, ensures implementation of administrative tasks and measures to achieve energy security, to increase energy efficiency and energy saving, and to increase the use of energy from renewable sources.
