

Civil Nuclear Energy Workshop: Partnering for Implementation

OCTOBER 8-9, 2024 | KNOXVILLE, TN

Roman Sporina

*Director General
JESS*

Roman Sporina is a Chairman and CEO of Slovak nuclear company JESS a.s. with main target to build up the new NPP 1200 MW in Slovakia.

He has more than 20 years of working experience, mainly in the energy and trade sector. He delivered several successful project implementations in CEE region. A pioneer of the deployment of new technologies and procedures in real life, with a strong sense of economic and ecological efficiency.

Has a technical engineering degree with specialization in energy efficiency and transportation. His primary interest is the identification and implementation of new energy technologies. During his working career he has worked with several top tier CEE region companies in various management positions.

Organization Overview:

The Jadrová energetická spoločnosť Slovenska, a. s.(JESS), represents a key step towards the construction of a new nuclear power plant in Jaslovské Bohunice. It is a joint venture between the Slovak republic Ministry of Economy, which owns 51% of the shares, and the Czech CEZ Group with 49% of the shares. Their cooperation reflects the common history and strong energy ties between the Czech Republic and the Slovak Republic.

Delegate Interests:

standard technology of AP 1000

Topics / subjects the delegate wishes to be included in the Workshop and site visits :

Hydrogen production at NPP site
