

# SOUTH AFRICA SMART TRANSMISSION WORKSHOP

JUNE 18-19, 2024 | JOHANNESBURG, SOUTH AFRICA

## **Joanne Dixon**

*Managing Director  
Energy Markets Group*

Joanne is a markets, regulatory, restructuring, and transactions advisor with nearly 20 years of experience in energy sector reform and infrastructure development. She provides transaction advisory to private investors in West Africa on power sector investments and works on USTDA's Definitional Mission for South Africa as part of the Just Energy Transition Partnership (JETP). She provided advisory globally in energy market assessment, institutional restructuring, DFI project financing results review, and regulatory work for donor institutions including the World Bank, IFC, Asian Development Bank, MCC, and directly with utilities. Previously, Joanne was one of the original founders on EMG in 2003 prior to moving to Spain to work with EMG's then-parent company Mercados Energeticos.

In addition to her long experience in Africa, Joanne has worked in over 28 countries worldwide, ranging from Mexico, Mongolia, and Myanmar, Pakistan, Saudi Arabia, and various EU countries. Early in her career, Joanne spent two years living in rural Senegal as a Peace Corps volunteer in Natural Resource Management and Small Business Development.

Joanne obtained a Global Executive MBA from IESE Business School (Barcelona, Spain) and a Master degree in Power Sector Management from the University of Comillas (Madrid, Spain).
