Sexual Assault Nurse Examiner (SANE) Seminar for the Adult, Adolescent & Pediatric Populations (Combined Course)

Self-Paced Webinars

All webinars are a prerequisite to attending the in-person session. Attendees must be prepared to take a quiz on the following content after completion and before the in-person session.

Webinar 1:	Title:	Overview of Forensic Nursing
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator,
		Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topic, the participant will have the
		knowledge required by the adult/adolescent/pediatric SANE to incorporate
		fundamental forensic principles and practices into the nursing process when
		providing care for adult, adolescent and pediatric patients following a sexual assault.
	Time:	120 minutes
Webinar 2:	Title:	Overview of Sexual Violence
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator, Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topic, the participant will have the
		knowledge required to recognize the dynamics of sexual violence, which provide
		context for the care of adult and adolescent patients following a sexual assault. The
		adult/adolescent SANE uses this knowledge to educate patients about the
		connection between violence and health, and to collaborate with patients in
	Time:	identifying appropriate interventions and community referrals. 120 minutes
Webinar 3:	Title:	Overview of Child Maltreatment
webinar 3:		
	Instructor:	Lynn Cook, Program & Policy Analyst – Children's Justice Act Program Analyst, Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topics, the participant will have knowledge required to recognize the dynamics of sexual violence, which provide the
		context for the care of pediatric patients following sexual abuse/assault. The pediatric SANE uses this knowledge to educate patients and families about the
		connection between child and sexual abuse/assault and health, and to collaborate
		with patients and families in identifying appropriate interventions and community
		referrals.
	Time:	120 minutes
Webinar 4:	Title:	Special Populations: Healthcare & The Forensic Exam for the Transgender and
		LGBTQIA+ Community
	Instructor:	Jessica Johnston-Rickert, MD, Internal Medicine, Primary Care of Appleton
	Objective:	Upon completing this webinar, the participant will understand the unique healthcare
		challenges to underserved sexual assault and abuse populations and associated
		prevalence rates of the LGBTQIA+ (lesbian, gay, bisexual, transgender,
		questioning/queer, intersex, agender/asexual) community, as well as knowledge of
		correct terminology and definitions. Best practices for improving forensic nursing
		care provided to underserved or vulnerable patient populations. Factors that impact
		the vulnerability of patients being targeted for sexual assault and abuse.
	Time:	60 minutes
Webinar 5:	Title:	Special Populations: Indigenous Women
	Instructor:	Brooke Johnson, Missing, Murdered & Indigenous Women Coordinator, Wisconsin Department of Justice
	Objective:	Upon completing this webinar, the participant will understand the unique healthcare challenges to underserved sexual assault and abuse populations and associated

		prevalence rates of the indigenous community, particularly missing and murdered
		women. Best practices for improving forensic nursing care provided to this
		population.
	Time:	60 minutes
Webinar 6:	Title:	Special Populations: Patients with Disabilities
	Instructor:	Pam Malin, Advocate, Disability Rights Wisconsin
	Objective:	Upon completing this webinar, the participant will understand the unique healthcare
		challenges to underserved sexual assault and abuse populations and associated
		prevalence rates of the people with disabilities. Best practices for improving forensic
		nursing care provided to this population.
	Time:	122 minutes
Webinar 7:	Title:	Special Populations: Human Trafficking Primer for the SANE Part I, II, & III
	Instructor:	Dr. Debbie Lassiter, CEO, Convergence Resource Center, Milwaukee
		Jamie Counsel, BSN, RN, Forensic Nurse Coordinator, Mercy Health and Trauma Center
	Objective:	Upon completing this webinar, the participant will learn factors that impact the
		vulnerability of patients being targeted for sexual abuse and human trafficking.
		Recognizing the difference between domestic violence and human trafficking.
	Time:	60 minutes
Webinar 8:	Title:	Forensic Interviewers and their Role in the MDT
	Instructor:	Lynn Cook, Program & Policy Analyst – Children's Justice Act Program Analyst,
		Wisconsin Department of Justice
	Objective:	Upon completing this webinar, the participant will understand what forensic
		interviewing is, their role in the multidisciplinary team as it relates to sexual assault
		and how SANEs can expect to partner with this discipline in their practice.
	Time:	60 minutes
Webinar 9:	Title:	Handling Strangulation Cases on the Front Lines (Strangulation 101)
	Instructor:	Dr. Jacquelyn Campbell, Dr. Ralph Riviello, Gael Strack, JD, Institute on Strangulation Prevention
		This webines, bested by the Training Institute on Strongwlation Drevention, features
1	Objective:	This webinar, hosted by the Training Institute on Strangulation Prevention, features

		evaluate care as well as to collaborate with patients in identifying appropriate care
		goals and community care referrals.
	Time:	120 minutes
Webinar 11:	Title:	Minimal Facts Interviewing with Pediatrics
	Instructor:	
		Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topics, the participant will learn key
		components of obtaining a comprehensive, developmentally appropriate patient
		history of the pediatric patient, the difference between a forensic interview and a
		medical forensic history, techniques for establishing rapport and leading vs non-
		leading questions.
	Time:	120 minutes
Webinar 12:	Title:	Sexually Transmitted Infections & Treatment; Pregnancy Assessment and Risk
	Instructor:	Cara Berg Raunick, DNP, APRN, CSC, SANE-A, IF, Director of Clinical Quality and
		Advancement, Women's Health Nurse Practitioner, Cara Berg Raunick Health Care
		Education and Training
	Objective:	Upon completing instruction in the following topics, the participant will have the
		knowledge required to use the nursing process when caring for and communicating
		with patients who are at risk for an actual or potential sexually transmitted disease following sexual abuse/assault. Sexually transmitted diseases may include
		gonorrhea, chlamydia, trichomoniasis, human immunodeficiency virus (HIV),
		syphilis, herpes, human papillomavirus, and hepatitis B and C. Have the knowledge
		required to accurately assess the risk of pregnancy following sexual abuse/assault
		and to provide the pediatric and adolescent patient with options for care, including
		information for receiving emergency contraception.
	Time:	120 minutes
Webinar 13:	Title:	Wisconsin Evidence Kit Collection Overview
	Instructor:	Dan Campbell, BS; DNA Unit Supervisor, Wisconsin Crime Laboratory; Rachel Cortez,
		RN, CEN, SANE-A, SANE-P, Supervisor Ascension Mobile Sexual Assault Treatment
		Center and Susan Kanack, BSN, RN, SANE-A, SANE-P
	Objective:	After completing this instruction, the participant will have the knowledge required to
		perform in the role of the adult, adolescent and pediatric SANE in employing a
		patient/family-centered approach to obtaining and preserving the biologic and trace
		specimens from all populations and suspects using forensic nursing principles.
	Time:	78 minutes
Webinar 14:	Title:	Wisconsin Track Kit Overview
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator,
	Objective	Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topic, the participant will understand the functionality and purpose of the Wisconsin Kit Tracking System and how to use in
		patient care to track Wisconsin evidence.
	Time:	60 minutes
Webinar 15:	Title:	Wisconsin Sexual Assault Exam Fund (SAFE)
Webinal 15.	Instructor:	Courtney Watson, MSW, SAFE Fund Administrator, Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topics, the participant will understand
		the functionality and purpose of the SAFE Fund, what is covered and how SANEs
		should submit for reimbursement according to Wisconsin law.
	Time:	30 minutes
Webinar 16:	Title:	Wisconsin Crime Victim Compensation

	Instructor:	Keri Berling, Crime Victim Compensation Program Director, Wisconsin Department of Justice	
	Objective:	Upon completing this webinar, the participant will Understand the functionality and purpose of the Crime Victim Compensation.	
	Time:	30 minutes	
Webinar 17:	Title:	Legal Considerations for Forensic Nurses in Wisconsin	
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator, Wisconsin Department of Justice	
	Objective:	Upon completing this webinar, the participant will have the foundational knowledge required to effectively consider legal requirements that affect the provision of care to adult, adolescent and pediatric patients following sexual abuse/assault in Wisconsin.	
	Time:	120 minutes
