

13th ICPMF

International Conference on
Predictive Modelling in Food

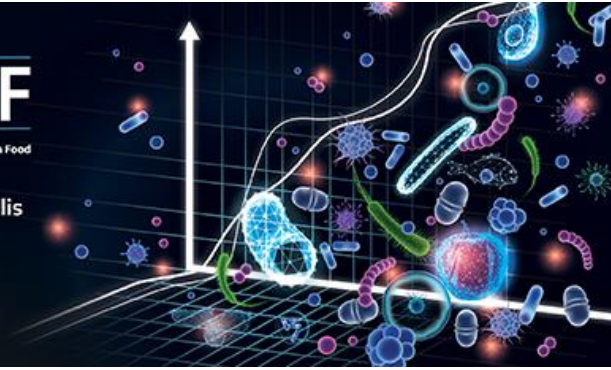

International Committee on Predictive Modelling in Food

**1-3
Sept.
2025**

Technopolis
City of
Athens

AFEA

Dr. Qingli Dong is a professor and doctoral supervisor of the University of Shanghai for Science and Technology (USST), P. R. China, and his research is focus on predictive food microbiology and its application on the quantitative microbiological risk assessment (QMRA), mainly supported by the Natural Science Foundation of China (NSFC), and China National Center for Food Safety Risk Assessment (CFSA). Dr. Dong is a member of FAO/WHO JEMRA, ICPMF board member, and also a member of National Food Safety Risk Assessment Commission by the National Health Commission (NHC) of P. R. China. Dr. Dong is in the editor board of some journals such as *Food Microbiology*, *Food Science and Human Wellness*, *Journal of Future Foods*, *Food Science of Animal Products*, and *Food Science* (Chinese). Dr. Dong has published over 350 papers among the field mentioned above in some international or Chinese journals of food science. And he has reviewed over 1500 manuscripts as a peer reviewer for over 50 international or Chinese journals. Dr. Dong has sponsored and (co)hosted a Workshop on Predictive Microbiology and Risk Assessment in Foods (MicroRisk) annually in China.
