

# Expanding Access to Resources for Small and Sick Newborn Care : Newborn Toolkit

Mbozu Sipalo<sup>1</sup>, Lauren Allison<sup>1</sup>, Toby Whately<sup>1</sup>, David Gathara<sup>1</sup>, Joy E Lawn<sup>1</sup>

<sup>1</sup>London School of Hygiene and Tropical Medicine, London, United Kingdom

## Background

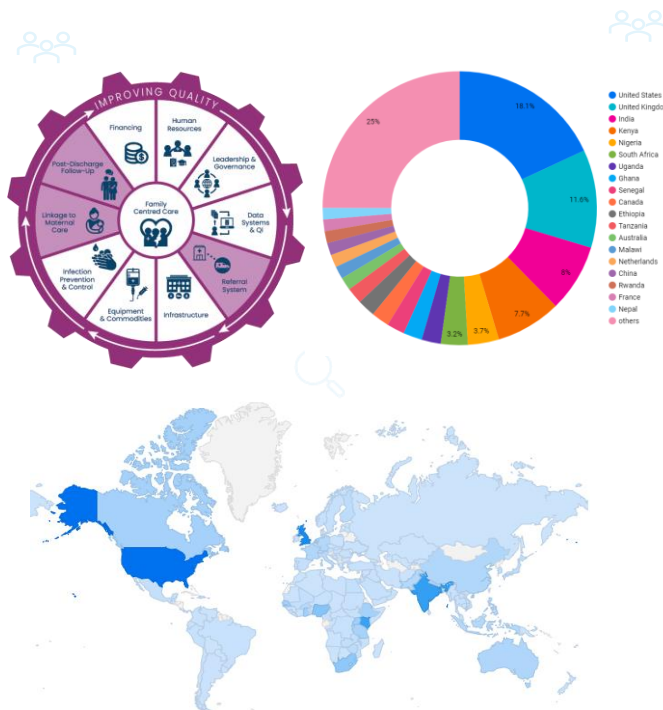

- The Newborn Toolkit explores how to implement Small and Sick Newborn Care (SSNC) across varying LMIC contexts
- Promotes a health systems approach<sup>1</sup> for health care delivery for Small and Sick Newborns

## Aim

- The Newborn toolkit addresses the implementation gap by being the go-to place for :
  - Knowledge and evidence
  - Practical tools
  - Implementation experiences

## Methods

- Co-designed by UNICEF and NEST360 with contributions from a growing community of over 300 implementers across 52 countries
- Content organised by the WHO health system building blocks
- Facilitates peer learning through Communities of Practice and social media channels

## Users

- The Newborn Toolkit website has a growing user base with over 52000 impressions online in the first quarter of 2023 from all over the world

## Results and engagement

- Over 700 tools, readings and resources
- Cumulative webinar viewership of over 1000
- Newsletter subscribership of over 500
- Quarterly Expert Advisory Committee meetings

## Community and Outreach

- Growing SSNC Community of Practice
- Gap by languages including French
- Optimising the user journey on the Newborn Toolkit Website
