

ICIAM 2027

The Hague
The Netherlands

Mathematics for a sustainable future

The 11th International Congress on Industrial and Applied Mathematics (ICIAM 2027)

Position your company as a partner of the largest industrial and applied mathematics congress in the world.

- Date* : 12 – 17 July 2027
- Venue* : The Hague, The Netherlands
- Expected participation* : 4,500 from over 85 countries

www.iciam2027.org

*For a
sustainable
future*

Target audience

The ICIAM 2027 Congress welcomes applied and industrial mathematicians from academia, research laboratories and industry. The congress can also be very beneficial for graduate students from master programs in applied mathematics, industrial mathematics, computational mathematics, and computational science and engineering.

Theme “Mathematics for a sustainable future”

Transitions with respect to the usage and production of energy, water, healthcare, and food are needed for a sustainable future. For many of these transitions mathematical tools, simulations, and knowledge are required. This motivates the theme of ICIAM 2027: “Mathematics for a sustainable future”.

Opportunities for ICIAM 2027 partners

Based on your specific objectives, target audience and key goals, our team can create a tailor-made package that best suits your needs. Below is a list of the wide range of benefits on offer:

- Your corporate logo listed as an **ICIAM 2027 Partner** to appear on all congress promotional materials
- Your corporate logo listed as an **ICIAM 2027 Partner** on the congress homepage with a link to the url of your choice
- Your corporate logo listed as an **ICIAM 2027 Partner** on the ICIAM 2027 book series.
- Invitation to attend the ICIAM 2027’s Industry Day
- Unique networking opportunities
- Option to provide a two-minute promotional video of your company, played as participants enter session rooms
- Prime location for a stand at the ICIAM 2027 Exhibition
- Your company featured in one of our case stories in social media campaigns for ICIAM 2027
- Support the provision of grants for young researchers to attend ICIAM 2027
- Join our commitment to organise a sustainable ICIAM 2027
- Invitation to attend the VIP President’s Dinner
- Be a part of an unforgettable week in The Hague in the Summer of 2027

International audience

Education partners

Become an Education Partner and support the ICIAM 2027 grant program - a vital component of the event. This program provides support to researchers by supporting their registration, travel and accommodation costs for ICIAM 2027.

Financial aid partners

This program offers participants from developing countries support in attending ICIAM 2027 by contributing to their registration fee, travel and accommodation costs.

Industry-wide support

Check out the list of organisations that have indicated their support in the bid to host ICIAM 2027.

These organisations have confirmed their support during the bid to host the 2027 Congress.

- Centrum Wiskunde & Informatica (CWI)
- The European Consortium for Mathematics in Industry (ECMI)
- KoMSO: the Committee for Mathematical Modeling, Simulation, and Optimization
- NRG Academy
- NXP Semiconductors B.V.
- Royal Netherlands Aerospace Center (nlr)
- Rede Portuguesa de Matemática para a Indústria e Inovação
- Siemens
- Signify Netherlands B.V.
- 4TU. Applied Mathematics Institute
- The Hague Convention Bureau
- The Municipality of The Hague

About ICIAM

The International Council for Industrial and Applied Mathematics (ICIAM) is a worldwide organization for professional applied mathematics societies, and for other societies with a significant interest in industrial or applied mathematics. Currently, ICIAM has 54 member societies worldwide. The first Congress took place in Paris in 1987. Since then, congresses take place every four years, so far having been held in Washington, Hamburg, Edinburgh, Sydney, Zurich, Vancouver, Beijing, Valencia and most recently in Tokyo. The last one attracted more than 5500 delegates. The next congress will be held in The Hague in 2027.

ICIAM is registered as a charitable organization in the USA. Its main objectives are:

- to promote industrial and applied mathematics internationally;
- to promote interactions between the member societies;
- to promote the goals of these member societies;
- to coordinate planning for periodic international meetings on industrial and applied mathematics.

ICIAM was created in response to the strong development of applied mathematics in the 1970s and 1980s. It was formally established in 1987 by the four societies GAMM, IMA, SIAM, and SMAI. The main activity is the ICIAM Congress which is held every 4 years. The ICIAM congress has already been held in 10 major cities in the world.

congress*

Major scientific prizes

ICIAM scientific prizes

ICIAM awards numerous major scientific prizes, and these awards are presented to the recipients during the congress.

ICIAM awards six major scientific prizes at the opening of the ICIAM Congresses:

- **ICIAM Collatz Prize** to provide international recognition to individual scientists under 42 years of age for outstanding work on industrial and applied mathematics.
- **ICIAM Industry Prize** to provide international recognition to scientists who have made outstanding contributions to innovative mathematical techniques with demonstrated impact in Industry.
- **ICIAM Lagrange Prize** to provide international recognition to individual mathematicians who have made an exceptional contribution to applied mathematics throughout their careers.
- **ICIAM Maxwell Prize** to provide international recognition to a mathematician who has demonstrated originality in applied mathematics.
- **ICIAM Pioneer Prize** for pioneering work introducing applied mathematical methods and scientific computing techniques to an industrial problem area or a new scientific field of applications.
- **ICIAM Su Buchin Prize** to provide international recognition of an outstanding contribution by an individual in the application of mathematics to emerging economies and human development, in particular at the economic and cultural level in developing countries.

ICIAM partnerships

- ICIAM is a scientific partner of the Centre International de Mathématiques Pures et Appliquées (CIMPA) which co-organises and sponsors numerous activities in developing countries, in all continents.
- ICIAM provides support for attendance at conferences in/from developing countries.
- ICIAM is a category 1 full member of the International Science Council (ISC).

ICIAM Board

- **Wil Schilders**, TU Eindhoven, President
- **Ya-xiang Yuan**, Chinese Academy of Sciences, Past President
- **Suzanne Shontz**, University of Kansas, Secretary
- **Heike Fassbender**, TU Braunschweig, Treasurer

Local Organising Committee members

- **Kees Vuik**, TU Delft, The Netherlands
- **Diederik Fokkema**, The Netherlands
- **Volker Mehrmann**, Technische Universität Berlin, Germany
- **Vivi Rottschäfer**, Leiden University, The Netherlands
- **Véronique Mame-Deschamps**, Université Claude Bernard Lyon 1, France
- **Karen Veroy-Grepl**, Eindhoven University of Technology and RWTH Aachen, The Netherlands & Germany
- **Rosa M. Donat**, University of Valencia, Spain
