rePHerral: All Scotland Pulmonary Hypertension Referral Network Meeting 2025

Learning Objectives

1. Delegates will be given updates in general PH and new PH guidelines, to be able to apply these updates to everyday practices
2. Identify key diagnostic approaches and management protocols for pulmonary hypertension (PH), including right heart function and PH emergencies
3. Understand and apply current management strategies for acute pulmonary embolism and chronic thromboembolic pulmonary hypertension (CTEPH)

With thanks to the generous support of our sponsors:

Several pharmaceutical companies are sponsoring this meeting and may have an exhibition stand present. However, they have had no input into or influence over the programme content
