Virtual congress platform

The GreenRisk4Alps conference 2021 will be held on the platform "EventsOnAIR".

After your registration you will receive the login details on Friday, June 25.

To participate comfortably from home or office – we highly recommend to use the **Google Chrome Browser**.

Below you can get an overview of the platform in advance.

1. **TIMELINE**

    The Timeline is the main page of the virtual congress platform. Here you can view the program and enter the different sections of the virtual congress.

2. **SESSIONS**

    Here you can see the program of the conference.

    When you click on a session, you can view the session information on the right side and join live just before the session starts.

    In the sessions, you have the opportunity to interact with presenters via the Q&A function.

    You also can participate in live polling.

3. **GreenRisk4Alps and PARTNERS**

    You can visit the GreenRisk4Alps and partners area at any time during the congress.
    By clicking on "View", you can see detailed information about the project. On the right side
    you can view or download documents or visit the website of the partners.

4. **MEETING HUB**

    The Meeting Hub offers you the possibility to network with other attendees to stay
    connected during the congress. Once you are connected, you can start a private chat or
    video meeting at any time, as well as schedule appointments for a later time.
    With the DND (do not disturb) function, in the upper right corner, you can set that no other
    participant can contact you.

5. **LIVE SUPPORT & HELP**

    Clicking on "?" will take you to an overview of all the features of the platform.
    In addition, a support team will be available throughout the congress to answer your
    questions and provide assistance. By clicking on the red icon, you can communicate directly
    with a team member.

6. **EXPORT**

    At the end of the conference, you can export all the notes you took during the sessions or in
    the exhibition as well as all networked contacts.

7. **YOUR PROFILE**

    Before the conference starts, please take a few minutes to set up your profile.
    You can set contact information, profile picture and general settings here. Most important is
    the contact information you want to display and share in Meeting Hub.
    Likewise, you can adjust your camera and microphone settings here.
