General Program Overview

TUESDAY SEPT 2, 2025

8:00-9:30	Registration
9:00-18:00	Advanced Diving Accident Life Support (ADALS) Course 1 & 2 BALTICA
14:00-18:00	EUBS ExCom Meeting MEETING ROOM 1

WEDNESDAY SEPT 3, 2025

8:00-18:00	Registration		
9:00-13:00	ADALS 3 BALTICA	Workshop: Hyperbaric Safety Talks NAUTICA	Workshop: Diving Medicine Cases EUROPAEA
13:00-14:15	Lunch for workshop attendees		
14:15-16:00	Opening ceremony, Keynote 1 EUROPAEA		
16:00-16:30	Coffee break		
16:30-18:15	Scientific session 1		
19:30-21:00	Welcome reception at Helsinki City Hall		

THURSDAY SEPT 4, 2025

8:00-11:00	Registration		
8:30-10:30	Scientific Session 2, Keynote 2		
10:30-11:00	Coffee Break		
11:00-12:30	Scientific session 3		
12:30-14:00	Lunch and poster sessions	ECHM Meeting MEETING ROOM 2	
14:00-16:00	Scientific session 4, Keynote 3		
16:00-16:30	Coffee break		
16:30-18:00	Scientific session 5, Keynote 4		

FRIDAY SEPT 5, 2025

8:00-11:00	Registration	
8:30-10:30	Scientific Session 6, Keynote 5	
10:30-11:00	Coffee Break	
11:00-12:30	Scientific session 7	
12:30-14:00	Lunch and poster sessions	EDTC Meeting MEETING ROOM 2
14:00-16:00	Scientific session 8, Keynote 6	
14:00-17:00	EBAss GA and BOD NAUTICA	
16:00-16:30	Coffee break	
16:30-18:00	Scientific session 9	
19:00-23:30	Gala Dinner at Restaurant Sipuli	

SATURDAY SEPT 6, 2025

9:00-11:00	Scientific Session 10, Keynote 7
11:00-11:30	Coffee break
11:30-12:30	EUBS General Assembly
12:30	Closing the EUBS 2025 Annual Meeting
12:30-16:30	DAN Diver's Day

Programme

TUESDAY SEPT 2, 2025

8:00-9:30 Re	egistration
--------------	-------------

Preconference Course | BALTICA

9:00-18:00 Advanced Diving Accident Life Support (ADALS) Course 1 & 2

Chairs: Laura Tuominen and Timo Jama

14:00-18:00 EUBS ExCom Meeting | MEETING ROOM 1

WEDNESDAY SEPT 3, 2025

8:00-18:00	Registration

9:00-13:00	ADALS 3	BALTICA
------------	---------	---------

Chairs: Laura Tuominen and Timo Jama

9:00-13:00 Workshop: Hyperbaric Safety Talks | NAUTICA

	Chair: Manuel Preto
9:00-9:20	Welcome
9:20-9:30	Introduction of Workshop and Annual Congress by Angeliki Chandrinou
9:30-9:50	Hyperbaric Safety - the Future by Manuel Preto
9:50-10:10	Hyperbaric Fire Safety: How real is this issue and how to manage it? by François Burman
10:10-10:30	Application and choice of therapeutic tables by Chris Bryαn
10:30-11:00	Panel discussion
	Coffee breeds

11:00-11:20 Coffee break

11:40-12:00 12:00-12:20	Clinical Safety of the IC patient in HBOT by <i>Kari Keski-Saari</i> The Hyperbaric Safety Blueprint by <i>Elisabete Silva</i> IC patient during HBOT session: Risk factors for adverse events by <i>Aneta Miszewska</i> Panel discussion
12:20-12:40	Panel discussion
12:40-12:50	Closing session

9:00-13:00 Workshop: Diving Medicine Cases | EUROPAEA

	Chairs: Tomi Wuorimaa and Jouko Nurkkala
9:00-11:00	Workshop

11:00-11:30 Coffee break

11:30-13:00 Workshop

13:00-14:15 Lunch for workshop attendees

14:15-16:00 Opening ceremony | EUROPAEA

Chair: Anne Räisänen-Sokolowski

KEYNOTE 1: Underwater world in Finland by Pekka Tuuri, Sami Paakkarinen and Tommi Toivonen

16:00-16:30 Coffee break

16:30-18:00 Scientific session 1: Bubbles and Decompression

Chairs: Constantino Balestra and Richard Lundell

	commercial diving by Imbert J-P et al.
16:45-17:00	To recompress, or not to recompress. That's the Hyperbaric Dilemma by Desola J et al

17:00-17:15 Measuring Whole-Body Inert Gas Uptake and Washout During Submersion by

16:30-16:45 Bubble scenarios suggested by cluster analysis of 765 cases of DCS recorded in

Plogmark O et al

17:15-17:30 Within-diver variability in whole-body nitrogen elimination after identical diving and decompression conditions by De Ridder S et al.

17:30-17:45 Adapted Algorithms for Safe and Efficient Decompression in Extended Altitude Dives by Longbardi P et al

17:45-18:00 The Effect of Dyslipidemia on Endothelial Function During Scuba Dives by Ozgok Kangal m et al 18:00-18:15 Discussion

19:30-21:00 Welcome reception at Helsinki City Hall

EUBS 2025

	14:0
	14:0

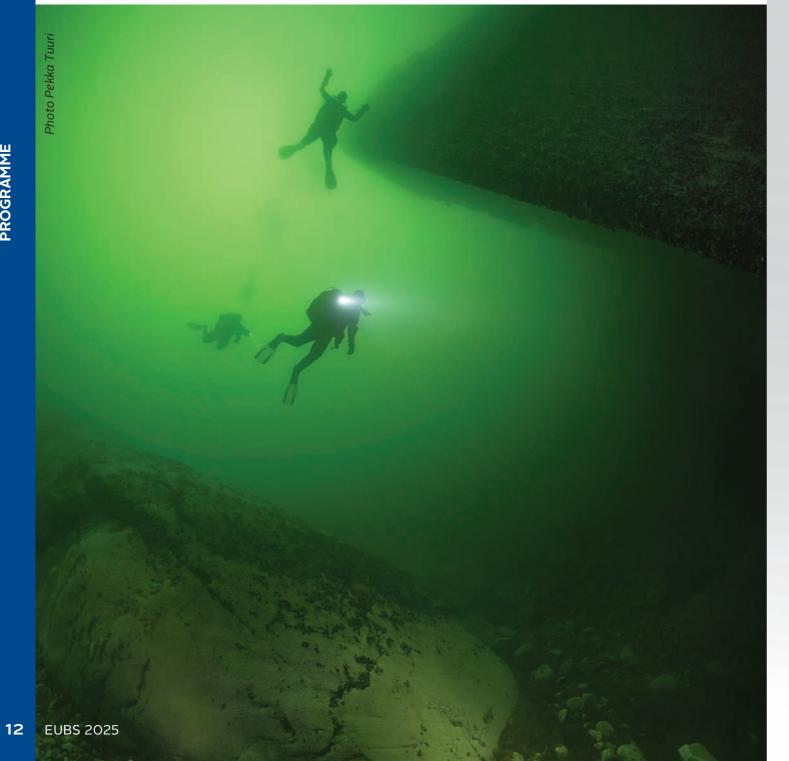

THURSDAY SEPT 4, 2025		
8:00-11:00	Registration	
08:30-10:30	Scientific Session 2: New Winds in Diving and Hyperbaric Medicine	
	Chairs: Jean-Eric Blatteau and Lesley Blogg	
8:30-9:15 9:15-9:30	KEYNOTE 2 : Simon Mitchell: What's new in Diving and Hyperbaric Medicine? The effects of HBO on the macro- and oligo-elements in the kidney and liver tissue by Nesovic Ostojic J et al.	
9:30-9:45	Nubiss: A platform generating evidence for HBOT involving private investment, Patient Empowerment and Specialty Physicians by Cuntze F et al	
9:45-10:00	Development of an evidence-based, collaborative, international interprofessional in situ hyperbaric medicine simulation curriculum by Boet S et al	
10:00-10:15	Indications for Extended Hyperbaric Recompression Tables in Severe Cutis Marmorata with Neurological Impairment by Herrera C et al	
10:15-10.30	Discussion	
10:30-11:00	Coffee Break	
11:00-12:30	Scientific session 3: HBOT for Carbon Monoxide Poisoning	
	Chairs: Jacek Kot and Bengusu Mirasoglu	
11:00-11:15	Hyperbaric Oxygen Therapy for Multiple Acute Carbon Monoxide Poisonings During a Nationwide Blackout Response by Papoutsidakis E et al.	
11:15-11:30	Atrial Fibrillation Secondary to Carbon Monoxide Poisoning: Resolution with Hyperbaric Oxygen Therapy by Taheri O et al	
11:30-11:45	Orbital Emphysema and Risk of Compartment Syndrome during Hyperbaric Oxygen Therapy for Carbon Monoxide Poisoning by Taheri O et al	
11:45-12:00	HBOT in Severe Carbon Monoxide Poisoning. A Ten-Years Experience from HBOT Facility in Oman by Alqartoobi H et al	
12:00-12:15	The Comparison of Hyperbaric Oxygen Therapy Protocols Against Ischemia-Reperfusion Injury in Rats After Testicular Torsion by Ozgok Kangal M et al Discussion	
12:15-12:30		
40100 44100	Lunch and nactor coccions	
12:30-14:00	Lunch and poster sessions	
12:30-14:00	ECHM Meeting MEETING ROOM 2	
	ECHM Meeting MEETING ROOM 2 Scientific session 4: HBOT and Intensive Care	
12:30-14:00 14:00-16:00	ECHM Meeting MEETING ROOM 2 Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala	
12:30-14:00 14:00-16:00 14:00-14:45	ECHM Meeting MEETING ROOM 2 Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al Discussion	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 16:00-16:30	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al Discussion Coffee break Scientific session 5: HBOT after Radiation Therapy and Updates on the Indication	
12:30-14:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 16:00-16:30	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al Discussion Coffee break Scientific session 5: HBOT after Radiation Therapy and Updates on the Indication of Sudden Hearing Loss Chairs: Anders Kjellberg and Jari Suvilehto KEYNOTE 4: Nicklas Oscarsson: Hyperbaric Oxygen after Radiation Therapy Hyperbaric Oxygen for Idiopathic Sudden Sensorineural Hearing Loss, a preliminary	
12:30-14:00 14:00-16:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 16:00-16:30 16:30-17:15	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al Discussion Coffee break Scientific session 5: HBOT after Radiation Therapy and Updates on the Indication of Sudden Hearing Loss Chairs: Anders Kjellberg and Jari Suvilehto KEYNOTE 4: Nicklas Oscarsson: Hyperbaric Oxygen after Radiation Therapy	
12:30-14:00 14:00-16:00 14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 16:00-16:30 16:30-17:15 17:15-17:30	Scientific session 4: HBOT and Intensive Care Chairs: Nicklas Oscarsson and Riikka Takala KEYNOTE 3: Anders Kjellberg: Hyperbaric oxygen treatment in acute COVID- and ARDS- patients Hemodynamic monitoring of patients with necrotizing soft tissue during treatment with hyperbaric oxygen by Arienkiel B et al Lack of sedation in gas embolism patients: a risk of central nervous system oxygen toxicity? by Lewy C et al Enhancing Emergency Preparedness in Hyperbaric Medicine through Simulation-Based Training by Giacomini C Use of hyperbaric oxygen therapy in severe earthquake injuries by Demir L et al Discussion Coffee break Scientific session 5: HBOT after Radiation Therapy and Updates on the Indication of Sudden Hearing Loss Chairs: Anders Kjellberg and Jari Suvilehto KEYNOTE 4: Nicklas Oscarsson: Hyperbaric Oxygen after Radiation Therapy Hyperbaric Oxygen for Idiopathic Sudden Sensorineural Hearing Loss, a preliminary update by Lin Z Sudden Deafness treated with Hyperbaric Oxygen (SuDHO) – An ongoing multicentre	

FRIDAY SEP	T 5; 2025
8:00-11:00	Registration
8:30-10:30	Scientific Session 6: Cold Water and CCR Diving
	Chairs: Ingrid Eftedal and Alessandro Marroni
8:30-9:15 9:15-9:30	KEYNOTE 5 : <i>Neal Pollock</i> : Cold Water Diving and Rebreathers The Cardiac Changes During a Prolonged Diving Stress on a CCR Diving Expedition by Sokolowski S et al
9:30-9:45	The Effect of Extended Hyperoxic Environment on Lung Function and Myopization in Closed-Circuit Diving Expedition by Sokolowski S et al
9:45-10:00	Epidemiological assessment of technical diving accidents in France: a 15-year retrospective study by Gouin E et al
10:00-10:15 10:15-10.30	Cold Water and External Ear Canal Exostosis: Myth or Reality? by Sousa Telles S et al Discussion
10:30-11:00	Coffee Break
11:00-12:30	Scientific session 7: Diving and Gases
	Chairs: Xavier Vrijdag and Pieter-Jan van Ooji
11:00-11:15 11:15-11:30	Hypercapnia awareness training does not improve divers' ability to recognise hypercapnia during a simulated dive by Vrijdag X et al Physiological response to hypoxia in awareness study by van Waart H et al
11:30-11:45	Oxy-Inflammation and neuroplasticity changes during surface-supplied bounce diving by Bosco G et al
11:45-12:00	Underwater forensic investigation of a diving fatality: evaluating the scope and limits of incident reconstruction by Rybarova V et al.
12:00-12:15	The effects of hyperbaric oxygenation on oxidative stress after acute physical activity exposure by Kovacevic S et al
12:15-12:30	Discussion
12:30-14:00	Lunch and poster sessions
12:30-14:00	EDTC Meeting MEETING ROOM 2
12:30-14:00 14:00-16:00	EDTC Meeting MEETING ROOM 2 Scientific session 8: Freediving 1
	Scientific session 8: Freediving 1
14:00-16:00	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation
14:00-16:00 14:00-14:45 14:45-15:00	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving?
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by Mulder E et al
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by Mulder E et al Discussion
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 14:00-17:00	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by Mulder E et al Discussion EBASS GA and BOD NAUTICA
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 14:00-17:00 16:00-16:30	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by Mulder E et al Discussion EBASS GA and BOD NAUTICA Coffee break
14:00-16:00 14:00-14:45 14:45-15:00 15:00-15:15 15:15-15:30 15:30-15:45 15:45-16:00 14:00-17:00 16:00-16:30 16:30-18:00	Scientific session 8: Freediving 1 Chairs: Evangelos Papoutsidakis and Richard Lundell KEYNOTE 6: Peter Lindholm: Freediving Can a laboratory-based static apnea ramp test predict dynamic freediving desaturation? by Schagatay E et al Dry Static Apnea Ramp Test to identify freedivers at risk of faster oxygen desaturation by Pernett F et al Can Heart Rate Variability be an indicator of stress and recovery in repeated freediving? by Pernett F et al Heart rate and oxygen saturation during a blackout in dynamic apnea: A case study by Mulder E et al Discussion EBASS GA and BOD NAUTICA Coffee break Scientific session 9: Freediving 2 Chairs: Peter Lindholm and Eric Mulder Self-test involving three-maximal apneas predicts sustainable serial diving time in beginner freedivers by Schagatay E et al

11 10 EUBS 2025 EUBS 2025

SATURDAY SEPT 6, 2025

	•
9:00-11:00	Scientific Session 10: Scientific Diving and Miscellaneous
	Chairs: Rodrique Pignel and Marjo Parkkila-Harju
9:00-9:45 9:45-10:00	KEYNOTE 7 : Edward Stockdale: Training of Scientific Divers for Polar Expeditions A scoping review on the use of artificial intelligence (AI) applications in diving medicine Chow W et al
10:00-10:15	Acute Pulmonary Edema Related to aquatic activities: A Retrospective Analysis from a Diving Medicine Center by Garcia E et al
10:15-10:30	Wound healing results of diabetic foot ulcers with HBOT: a longitudinal retrospective cohort study by Lalieu R et al
10:30-11:00	Discussion
11:00-11:30	Coffee break
11:30-12:30	EUBS General Assembly
12:30	Closing the EUBS 2025 Annual Meeting
12:30-16:30	DAN Diver's Day (separate registration and programme)
