# Welcome to EACPT2025

Dear colleagues,

On behalf of the Finnish Society of Clinical Pharmacology, the European Society of Clinical Pharmacology and the Local Organizing Committee, it is our great pleasure to welcome you to the 17th Congress of the European Association for Clinical Pharmacology and Therapeutics in Helsinki, Finland, 28 June – 1 July 2025.

The 17<sup>th</sup> EACPT Congress is part of a very successful series of regular congresses that the EACPT started 30 years ago with the first congress in Paris in 1995. The theme of the 2025 Congress is "Embracing Innovations for Optimized Patient Care". Accordingly, the congress will explore the latest advancements in clinical pharmacology and therapeutics, covering novel issues related to clinical pharmacology in healthcare and teaching, drug development, research and regulation, as well as new and emerging therapies.

Helsinki in late June offers typically very friendly weather conditions and extended daylight hours, providing you a unique chance to experience the Nordic "midnight sun." Enjoy mild temperatures and the beautiful ambience as the city bathes in natural light well into the evening.

We look forward to welcoming you to an unforgettable gathering under the welcoming skies of Helsinki!

Sincerely yours,

Professor Janne T. Backman  
Chair of EACPT2025 Helsinki
