

BIO POWDER
BURNER 16MW

WOOD PELLET
POWDER BURNER

Looking for a system
that will fit on the same
footprint as your existing
fossil fuel (natural gas,
LPG, or oil) system?

Looking for a
low-maintenance,
high-efficiency and
high-availability system?

Looking for a system
that will cope with
peaky demand profiles?

Have you heard of a
wood powder burner?

You can decarbonise your heat load now!

Tried and tested technology from Petro Bio

- 25 years of industry experience
- Dozens of proven installations throughout Europe
- Available in sizes from 3 to 50MW
- Multi fuel options for start up and back up
- Existing boiler conversions possible
