ABOUT US

Celtic Dynamics is an energy services company. We specialise in the development of energy projects for clients across all sectors. We assistance companies in the development of solutions, carbon neutrality roadmaps, decarbonisation projects and ESG solutions as required.

We are the largest commercial energy auditors in Ireland completing over 22% of Irish business energy audits in 2024 and with 100% success rate with energy grant applications.

We're Ireland's leading providers of **FREE SME Energy Audit** utilising the SSEA Voucher Scheme.

Our energy audits provide tailored recommendations to reduce your energy costs **by at least 30%**.

We completed over **460 energy audits** in Ireland to date.

ESG JOURNEY

ESG Reporting and Implementation Service

Celtic Dynamics gave us so many more solutions than we were originally looking at to help us achieve our energy reduction targets. They were so supportive afterwards to help us contact the right people. They are currently giving us great continued support to implement the projects on our plan. Definitely recommend to us Celtic Dynamics for projects.

-Manufacturer Ireland

Celtic Dynamics supported us in defining a roadmap for us to achieve our carbon neutrality goals. We are extremely happy with their services to date and would be more than happy to recommend them to any other business.

-Surmodics Ireland

With their great understanding of how energy grants are structured, Celtic Dynamics have helped us to implement many energy upgrades with a much lower end cost than first anticipated. They are great at carrying out the due diligence and supporting the design of energy projects. Definitely would recommend to other sites like ours.
