European Confederation of Medical Mycology

A new course in Medical Mycology: Mycology across Medical Fields

Course directors:

Prof. Esther Segal, (Tel Aviv University) | Prof. Ronen Ben Ami
(Sourasky Medical Center) | Prof. Neil Gow (ECMM President)

The European Confederation of Medical Mycology Societies (ECMM) and the CME of the Faculty of Medical and Health Sciences, at Tel Aviv University are opening an
International on-line course on

Mycology across Medical Fields

Experts at the forefront of clinical mycology will deliver lectures on the diverse aspects of fungal infections in modern medicine, from superficial skin and vaginal infections to invasive diseases in immune compromised patients. Learn about the latest evidence-based diagnostics, laboratory methods and therapeutic approaches from leading authors

The course will take place during the winter semester of 2024/2025
