

## Mr Antony Mamati

President to the Society of Radiography, Nigeria.

---

Antony Mamati is Radiographer, Professional leader, Clinical Trainer, leadership and Management Trainer and Health Economics Scholar. For over (15 years) he has practiced in various facets of radiography contributing to professional growth and development. With reference to capacity building and development, Tony has been instrumental in setting up the first Bachelor of Radiography (Diagnostic and Therapy) Training in Kenya at the university level – (JKUAT).

He is a key founder member of the AfroSafe Campaign, which is promoting the safe use of radiation in medicine and committee member to Relay for Life, a cancer support awareness campaign. Tony has also served in several professional organizations (as Pro bono) most recently as the President to the Society of Radiography in Kenya- SORK, Kenyan representative to Pan African Congress of Radiology and Imaging- PACORI, a Council Member to Association of Professional Society in East Africa-APSEA (2008-2013) and an Honorary Member of the Kenya Cancer Association. He is also the Founder member and secretary of Africa Radiography Forum, a forum that sets to unite all radiographers in Africa in championing professional development (both francophone and Anglophone Speaking countries)

He earned his Baccalaureate Degree in Radiography from the University of Johannesburg and a Diploma in Medical Imaging Science from Kenya Medical Training College- Nairobi. He is currently pursuing Post-graduate studies in Health Economics and Policy Planning. He has also acquired several cross cutting certifications in various healthcare areas.

He appreciates humor and hopes one day to be funny person.
