

Mr Tebello Pitso

South Africa

Mr Tebello Pitso is a Diagnostic Radiographer with five years of clinical experience in public and private healthcare and holds a Master's degree in Radiography. His clinical experience includes computed tomography (CT), emergency imaging, and radiation dose optimisation.

His research interests focus on paediatric CT, radiation protection, and Diagnostic Reference Levels (DRLs). His Master's research established indication-based local DRLs for paediatric contrast-enhanced abdominal CT examinations for neuroblastoma. Tebello has also published peer-reviewed research accredited by the Department of Higher Education and Training and is committed to advancing radiography through research and evidence-based practice.
