

ANNE BETARICE AFRICA

Cape Town, South Africa

Beatrice Africa started her nursing career in 1986 at Groote Schuur Hospital.

She started working as a Midwife at Mowbray Maternity Hospital December 1994 and has 28 years of perinatal care experience. She found her niche in Neonatology. Beatrice comprehensively implemented the Preterm Parents Basic Infant Life Support Training Program at Mowbray Maternity Hospital in 2009.

She conducted a Study titled "The Preterm Infant Caregivers Perspectives on Basic Infant Life Support Training before discharge" in 2018 to obtain the degree of Master of Nursing Science at Stellenbosch University. She is currently the Clinical Program Coordinator for Education at Mowbray Maternity Hospital. Presented at other conferences.
