

Dr Motselisi Mosiana

South Africa

Motselisi Mosiana is a healthcare entrepreneur, diagnostic radiographer, quality management professional, and health coach with more than 20 years of experience in radiography, occupational health, preventive healthcare, and healthcare quality improvement. She holds a Diploma in Radiography from the University of Johannesburg, a BSc in Quality Management from the University of South Africa, and is a certified corrective exercise specialist from International Sports Science institute.

As the founder and director of , Caredoc Radiography Services , Xrayonmalebongwe, and InsureSPR Health, Motse has been instrumental in expanding access to diagnostic imaging, bone and muscle health assessment, and preventive healthcare services in South Africa. Her work focuses on osteoporosis and sarcopenia screening, body composition analysis, healthy ageing, and primary healthcare innovation.

Motse is passionate about empowering individuals to take charge of their health through early detection, lifestyle modification, and evidence-based preventive care. She currently serves as a Councillor of the National Osteoporosis Foundation of South Africa and actively contributes to healthcare education and community wellness initiatives.

Her professional interests include bone and muscle health, healthy ageing, health coaching, healthcare quality management, radiology services development, and finding innovative models of primary healthcare delivery.
