

*Delivering the promise  
Owning the future*

## The Gen Z Approach to Lifelong Learning

**TUESDAY 24 JUNE 12:20-13:20**

### Gen Z Zone

#### ABOUT THIS SESSION

This panel explores how lifelong learning must adapt to meet the evolving needs of Gen Z. From AI and blended learning to embedding development into employment, hear fresh perspectives on reshaping education and training for a generation that expects flexibility, relevance, and innovation.

#### WHY YOU SHOULD ATTEND THIS SESSION

Gain insight into the future of learning, from the promise (and pitfalls) of AI to practical strategies for fostering a culture of continuous development in the workplace. Walk away with takeaways to drive change in your organisation.

#### WHO SHOULD ATTEND THIS SESSION

L&D professionals, curriculum and programme leads, employer training managers, and senior leaders in education and skills policy. Ideal for those responsible for designing agile, tech-enabled learning strategies that resonate with Gen Z's expectations for relevance, flexibility, and lifelong development.

#### SPEAKER OVERVIEW

Graham Hasting-Evans, NOCN Group Chief Executive, transitioned from building and construction to shaping the London 2012 Olympics' skills strategy. Prior roles include UK Commission for Employment and Skills program director. He's participated in UK apprenticeship reform, initiated Trailblazer standards, and advanced Green Skills advocacy through reports and event engagements.
