Global Elbow Network Conference 2026

Welcome

Our first-ever worldwide meeting in Miami, Florida, was nothing short of historic. With over **200 delegates** representing **36 countries**, the Global Elbow Network (GEN) entered the international stage with exceptional energy, unity, and purpose. What unfolded in Miami was more than a scientific meeting – it was the convergence of cultures, ideas, innovation, and a shared global commitment to advancing elbow care.

Since then, GEN's momentum has been remarkable. In less than one year, our community has grown to **over 500 members**, and we are on course to surpass 1,000 members by the time of our Lisbon meeting. This extraordinary growth reflects a rapidly strengthening global movement – one defined by collaboration, scientific excellence, and a shared vision for the future of elbow surgery.

We are delighted to invite your organisation to partner with GEN for our 2026 Annual Conference, which will be held in Lisbon, Portugal, from **5-7 November 2026**.

Global Elbow Network Conference 2026

About GEN

Mission: To advance elbow care worldwide through collaboration, education, research, and the free exchange of knowledge among surgeons, scientists, and industry partners.

Vision: To build the world's leading international community dedicated to elevating patient outcomes, fostering innovation, and shaping the future of elbow surgery through global partnership.

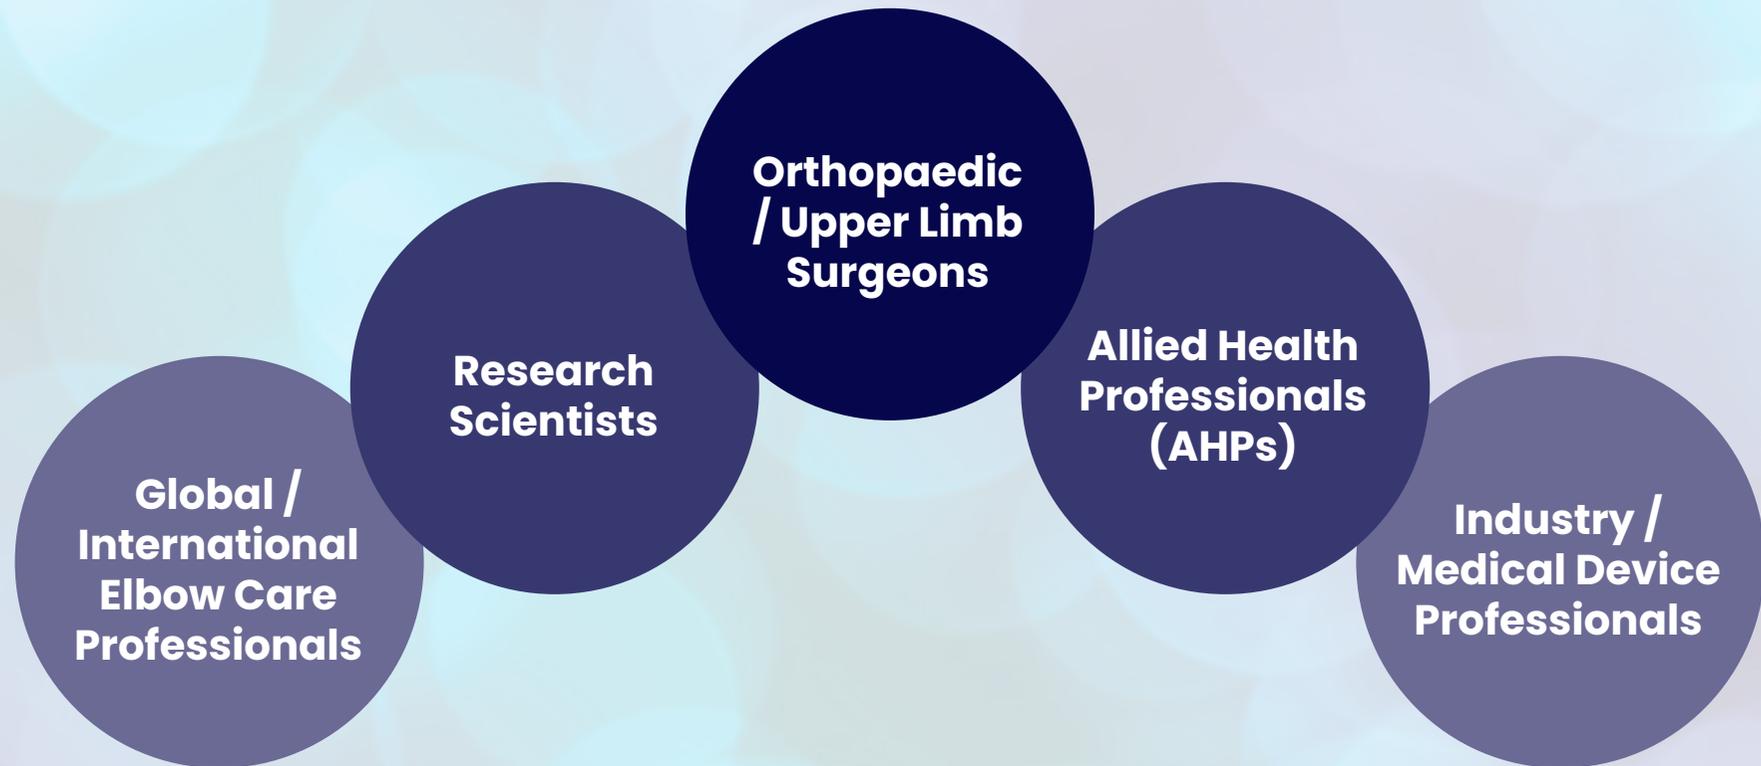

Why Partner with GEN in 2026?

Our Lisbon conference will connect your organisation with the world's most influential surgeons, innovators, and scientific leaders in elbow care. As a sponsor, you will gain:

- Direct engagement with top decision-makers in elbow surgery
- Opportunities for meaningful scientific and educational dialogue
- Visibility in high-impact sessions, workshops, and networking events
- Recognition as a key industry collaborator advancing global elbow care
- A presence at the premier global meeting dedicated exclusively to elbow surgery

Target Audience

The Conference will be host to more than 300 delegates and will be of interest to the following groups:
