

Orthodontic Clinical Excellence Network of the Craniofacial Society of Great Britain & Ireland Meeting

Craniofacial Conference CEN Day Glasgow

Room:

Wednesday 22 April 2026 –09:00-16:45

Aim of the meeting

To improve quality of care through orthodontic treatment for patients born with cleft lip and/or palate through shared learning/working of the national network of orthodontists

Objectives of the meeting

- Business meeting – update on issues relevant to national orthodontic cleft care
- Enhancing understanding of the dental needs of cleft patients
- Update from key stakeholders and organisations
- Reviewing data from national audits and learning from the outcomes
- Presentation and discussion of complex cases

Learning content

Sharing learning from clinical cases and provision of orthodontic cleft care in units across the UK through presentations and clinical audit

Development Outcomes

This CPD course meets the criteria for the GDCs development outcomes B & C
