

Congratulations on being selected for a **poster presentation** at this year's British Society of Breast Radiology Annual Scientific Meeting being held at John McIntyre Conference Centre, Edinburgh from Monday 2 - Tuesday 3 November 2026.

Please take the time to read the **poster presentation** guidance below.

Presenter Registration

If you haven't already done so, don't forget to register for the event! If your colleague is presenting with you make sure they also register to attend the Meeting. You can register here: www.delegate-reg.co.uk/bsbr2026/registration. **Early bird rates are available until 23:59 Sunday 27 September 2026.**

Orientation & timings

On your arrival at the John McIntyre Conference Centre, please ensure you visit the registration desk. Event staff will be able to direct you to your poster board and assist with mounting your poster if required.

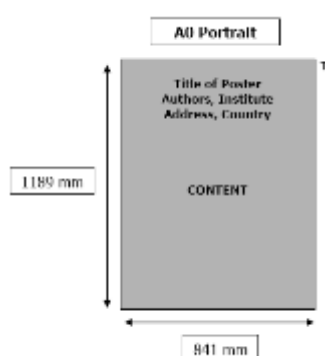

Installation time for all posters starts begins at the start of registration each day and must be in place by the start of the first presentation each morning. **Your poster will be displayed for the duration of the Meeting.**

Quick tip: Please ensure that you mount your poster by the correct poster board number. You can refer to the list of posters provided at the meeting for your board number.

Posters can be viewed during all refreshment and lunch breaks. Poster presenters are also requested to stand by their boards during designated display times (as detailed in the final programme) to answer any questions.

Don't forget to remove your poster at the end the Meeting. The Organising Committee will not be responsible for any posters that are not removed at the end of the Meeting.

Designing your poster

The poster boards are 2x1 meters. The ideal display size is an **A0 PORTRAIT** sized poster (84.1 cm (841 mm) x 118.9 cm (1189mm)). Please note that individual pieces of paper should be pre-mounted onto one large piece of paper or card.

Alternatively, you can use A1 landscape or A1 portrait (to fit on an A0 landscape board). For reference, dimensions are: A1: 84.1cm x 59.4cm. To provide a professional finish to your poster, individual pieces of paper should be pre-mounted onto one large piece of paper or card.

Please should include the poster title at the top. Please do not include a poster board number on your poster, this is subject to change.

Presenters are responsible for arranging the printing of their poster.

Your poster should be **visually engaging, clear, and inviting to read**. When designing your poster, consider the following:

- **Use a clear, large, and standard font**, such as Arial, Verdana, or Helvetica, to ensure text is easy to read from a distance
- **Choose colours carefully** and avoid combinations that may be difficult to distinguish, such as red and green, brown and green, or purple and blue
- **Consider using a light-coloured background** rather than pure white, as white backgrounds can create glare and may be uncomfortable to view
- **Ensure graphs, tables, and images are clearly presented** and large enough to be easily interpreted from a distance

Digital poster and consideration for awards

In addition to your printed poster, posters will also be made available in a digital format via the Conference App, please send a PDF of your poster (maximum 5mb file size) to bsbr@kc-jones.co.uk by **Monday 20 October 2026**.

Only posters received by the deadline above will be eligible for consideration for prizes.

We look forward to welcoming you in November and hearing more about your research!
