It is the National Representative Body for Ireland in the International Federation of Landscape Architects (IFLA) and a body for the general advancement of Landscape Architecture and Management and for the maintenance of the interest, status and uniformity of practice of the profession.

Submissions should illustrate:

- Hand-drawing competency
- Hand-drawing as a tool in the design process - illustrating design development of ideas from sketches through to refined drawings, to show the design process and thinking by means of skill in sketching and drawing
- Clear process of thinking
