GENERAL INFORMATION

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Dubai, Kuala Lumpur and Bogota.

AAPG

Since its founding in 1917, the American Association of Petroleum Geologists has been a pillar of the worldwide scientific community. The original purpose of AAPG, to foster scientific research, to advance the science of geology, to promote technology, and to inspire high professional conduct, still guides the Association today. AAPG provides publications, conferences, and educational opportunities to geoscientists and disseminates the most current geological information available to the general public.

ABOUT THE CONFERENCE

The Libya Petroleum & Geoscience Conference and Exhibition in Tripoli is the leading platform for the region's upstream industry and geoscience community. With the theme, "Unlocking the Hydrocarbon Potential of North Africa and the Mediterranean," this conference brings together national oil companies (NOCs), international majors, and wildcat explorers to plot the future of the region's vast, oil-rich basins. With Europe focussing on nearby North African supply and Libya aggressively pushing to break production ceilings, the event serves as a potential marketplace for negotiating new concession blocks, securing rig availability, and locking down multi-billion dollar joint ventures that will define the Mediterranean energy grid for years to come.

Technically the event serves as a premier geological and geophysical conference, deeply rooted in the subsurface complexities of North Africa and the Mediterranean. The agenda highlights the deployment of advanced 3D/4D seismic acquisition, seismic imaging and inversion, structural geology modeling, and high-resolution reservoir characterization to reduce exploration and development uncertainty. Special emphasis is placed on unlocking stratigraphic traps and optimizing development in complex settings like the Sirte, Ghadames, Cyrenaica and Murzuq basins, alongside deepwater offshore plays on the Pelagian Shelf.

Delegates will delve into petrophysics, sequence stratigraphy, sedimentology, petroleum systems, and reservoir geochemistry, leveraging these disciplines to strengthen reservoir understanding and maximize fluid-flow efficiency.

Furthermore, the event bridges traditional geoscience with the energy transition, addressing the geological modeling required for subsurface characterization and monitoring for Carbon Capture, Utilization, and Storage (CCUS), deep saline aquifer management, geothermal resource assessment, and the integration of artificial intelligence (AI) and machine learning into automated seismic interpretation and reservoir modeling.

SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company's experience at EAGE/ AAPG Libya Petroleum & Geoscience Conference & Exhibition. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

EAGE / AAPG strives to realize recognition, long term exposure, benefits and publicity for companies that sponsor EAGE / AAPG workshops / conferences.

N.B.: All sponsorship rates are in US Dollars.

WHY BECOME A SPONSOR

When you are a corporate sponsor you get high visibility in a qualitative and uncluttered environment that makes your message stand out. EAGE / AAPG are synonymous with quality, with proven track records in the past. The workshop programme offers a diverse menu that will help you reach your target audience.

Sponsoring will enable you to:

- Increase your visibility to a national, regional and international audience
- Enhance your corporate image
- Reach an influential and exclusive audience
- Break through the media clutter
- Associate your company with EAGE / AAPG– World's truly multi-disciplinary geosciences society

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.
