

The top half of the image features a background photograph of several oil pumpjacks in a field, silhouetted against a bright, hazy sky at sunrise or sunset. The sun is low on the horizon, creating a strong lens flare and a warm, golden glow. The pumpjacks are arranged in a line, receding into the distance. In the top left corner, there is a green rectangular box containing the EAGE logo and its full name.

WORKSHOP OVERVIEW

We are coming once again back to Buenos Aires, Argentina, 7-8 October 2026 to bring in experts to discuss new ideas, trends, and experiences covering all phases of an EOR project: research, planning, field implementation, and surveillance. As the existing oil fields mature, including the unconventional, EOR methods have been gaining significant momentum globally.

LOCATION

Welcome to Buenos Aires!

Buenos Aires is the capital and most populous city of the Argentine Republic. Its official names are City of Buenos Aires or Autonomous City of Buenos Aires. It is located in the central-eastern region of the country, on the southern shore of the Río de la Plata, in the Pampas region.

It is a cosmopolitan city and a major tourist destination. Its complex infrastructure makes it one of the most important metropolises in America and is an alpha category global city, given its influences in commerce, finance, fashion, art, gastronomy, education, entertainment and mainly in its marked culture.
